STUDENT GUIDE · 2026

Student Registration & Onboarding Guide

How to choose a program, apply, pay the enrollment fee, get verified and start using your Digitals Minds student portal.

Learn | Grow | Earn.

digitalsminds.com

Official Digitals Minds student publication

For prospective and newly enrolled students

WELCOME TO DIGITALS MINDS

Live online training, in batches, with a real team behind you

Digitals Minds runs practical training programs, such as e-commerce and marketplace training, that are taught **live online** by our team. You join a **batch**, a group of students who start together and follow the same class schedule.

The website is where you apply and pay. Your **student portal** is where you find your batch details, class schedule, joining links, onboarding steps, documents, notices and support.

> **Good to know:** classes happen live (for example on Zoom or Google Meet). The portal doesn't contain recorded lessons, videos or quizzes. It organises everything around your live classes.

In this guide

Every step a new student takes, in order, with screenshots of the real website and portal.

1 · Choose and apply

Explore programs, read the fee and batch details, and send your application. No account needed yet.

2 · Pay and send your details

Pay the fee yourself using the accounts on your private application page, then send us your transaction ID and receipt.

3 · Verification and activation

Our team checks the money has arrived. Only then is your seat confirmed and your student account created.

4 · Your student portal

Set your password, log in, complete onboarding and join your live classes.

THE ENROLLMENT JOURNEY

Eight stages from application to active student

You can follow each stage on your private application page and, later, on the timeline in your student portal. Stages marked **Our team** are done by Digitals Minds staff after a manual check.

1

Application received

You applied for a batch. Open the link we email you to confirm your address.

YOU

2

Payment pending

Your email is confirmed. Pay the fee and send your payment details.

YOU

3

Payment submitted

We have your transaction ID and receipt. This is not an approval yet.

YOU

4

Payment verified

Our team found the full payment in the account statement.

OUR TEAM

5

Enrollment confirmed

Your seat is reserved and your student account is created. You get a set-password email.

OUR TEAM

6

Onboarding

Starts when you first open your portal. Complete your checklist.

YOU

7

Active student

All required onboarding steps are done. Join your classes.

AUTOMATIC

8

Completed

Our team marks the program completed when you finish it.

OUR TEAM

Payment submitted ≠ payment approved. Sending a screenshot or transaction ID does not confirm your seat. Your enrollment is confirmed, and your account created, only after our team has verified that the full fee arrived. Some onboarding steps (for example "Profile details checked") are also confirmed by our team.

WHAT EACH STATUS MEANS FOR YOU

Five moments that are easy to confuse

STATUS	WHAT IT MEANS	WHAT HAPPENS NEXT	SEAT CONFIRMED?
Application submitted	Your details and CV reached us and you got a reference such as **DM-XXXX-XXXX**. No account exists yet.	Open the link in the email "Confirm your application...".	Not yet
Payment submitted	You sent your payment method, transaction ID, date and receipt. Our team still has to check the money arrived.	Wait for our email. You don't need to send it again.	Not yet
Payment verified	A Super Admin checked the account statement and confirmed the full fee was received.	Happens together with the next step.	Yes
Enrollment confirmed	Your seat in the batch is reserved. Your status page shows "Enrollment confirmed".	Check your email for "You're enrolled in ...".	Yes
Account activated	You set your password with the emailed link (valid for 7 days) and can log in to the student portal.	Log in, then start your onboarding steps.	Yes

If a payment can't be verified, your application goes back to **Payment pending**, the reason is shown on your application page, and we email you a fresh link to send the correct details.

STEP 1

Visit the website and open the courses

Go to **digitalsminds.com**. You can browse every public page without an account.

1. Click **Courses** in the top menu to see all training programs and their batches.
2. Or use the button on the featured program on the homepage. It also leads to the courses.

Also useful: **Services** (professional services you can enquire about), **Contact** (questions before you apply) and **Student portal** (log in once you're enrolled).

There's no "sign up" form. Your student account is created for you after your payment is verified.

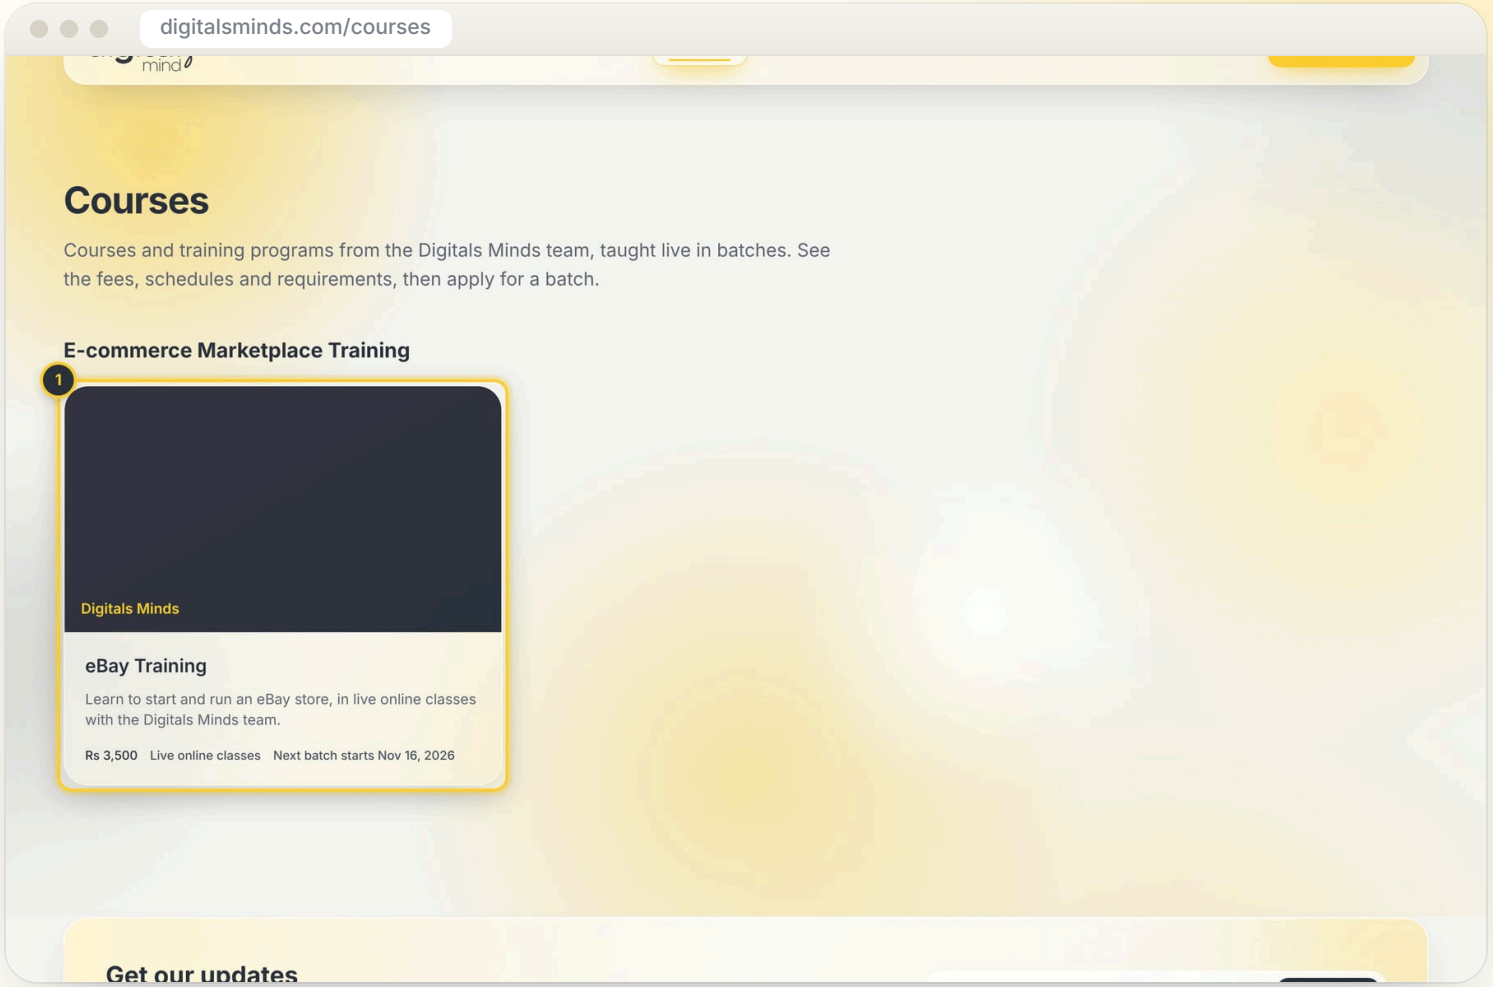

STEP 2

Pick the program you want

The **Courses** page lists every published program, grouped by category (for example *E-commerce Marketplace Training*).

1. Each card shows the **fee in PKR**, the format (for example *Live online classes*) and when the **next batch** starts. Click the card to open the program.

Page: **digitalsminds.com/courses**

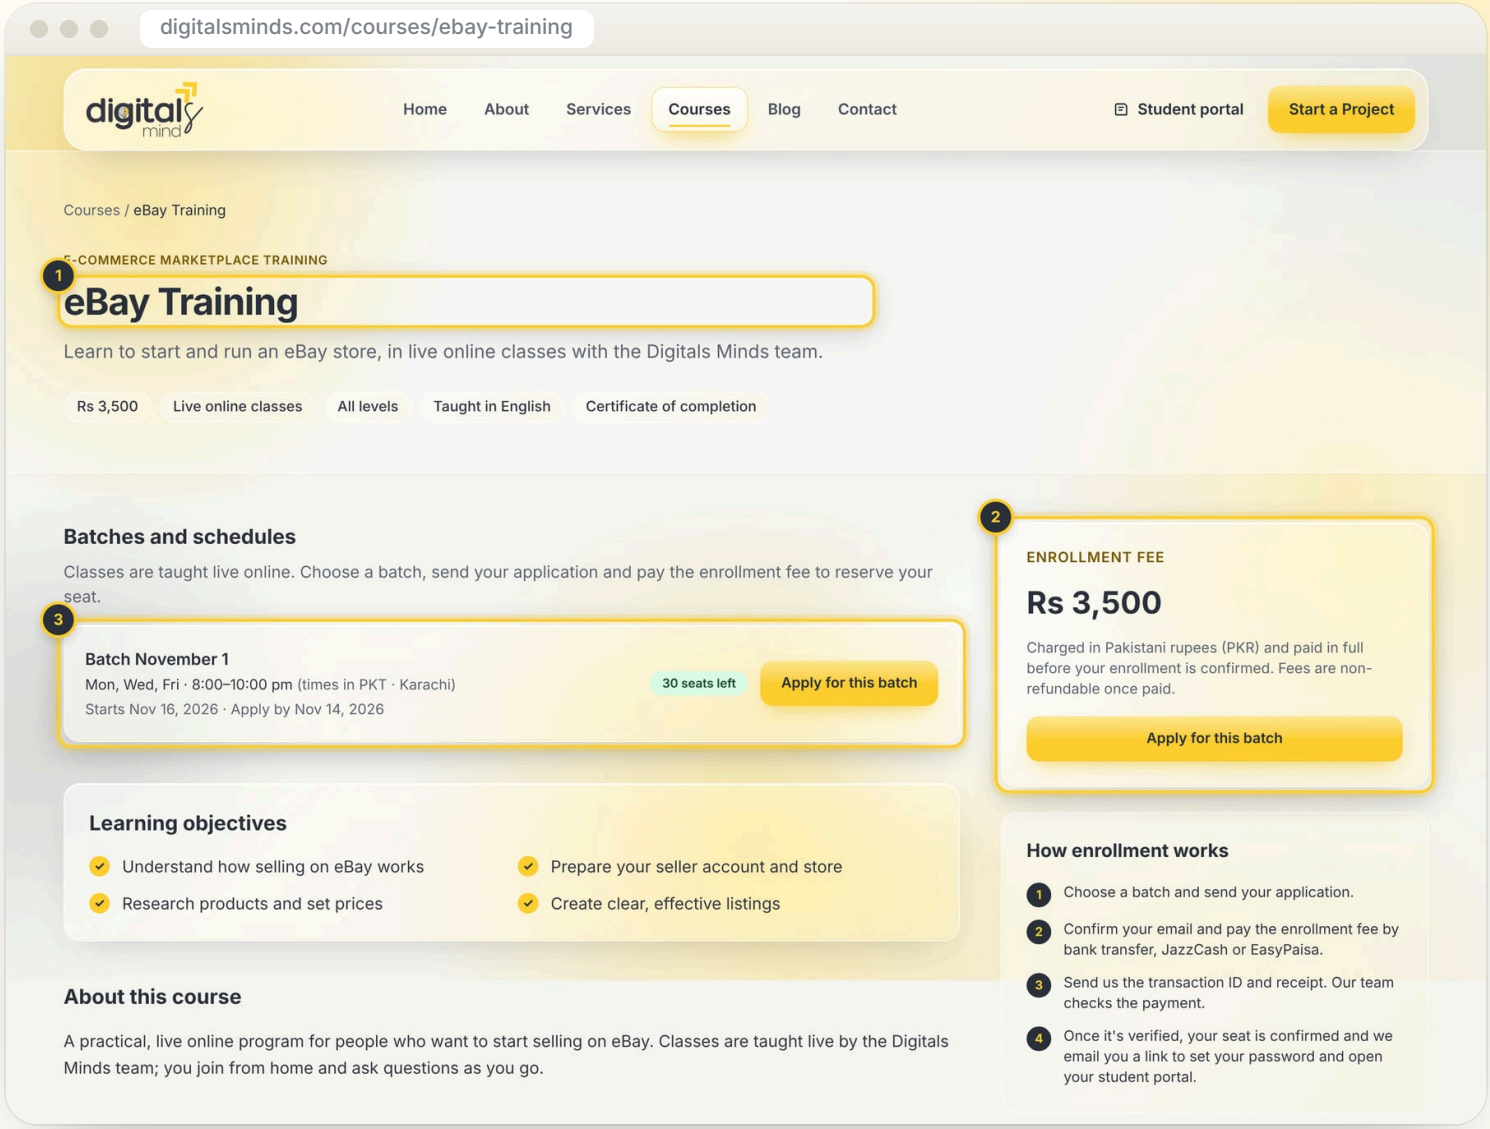

All fees are in Pakistani rupees (PKR). The program, fee and dates in this guide are **examples**; always check the live program page.

STEP 3

Read the program page: fee and batches

1. The program name, category and summary, with quick facts such as fee, format, level and language.
2. **Enrollment fee**: the full amount in PKR. It is paid in full before your enrollment is confirmed.
3. **Batches and schedules**: each batch shows its class days and times (with the time zone), start date, application deadline and **seats left**. Click **Apply for this batch** on the batch you want.

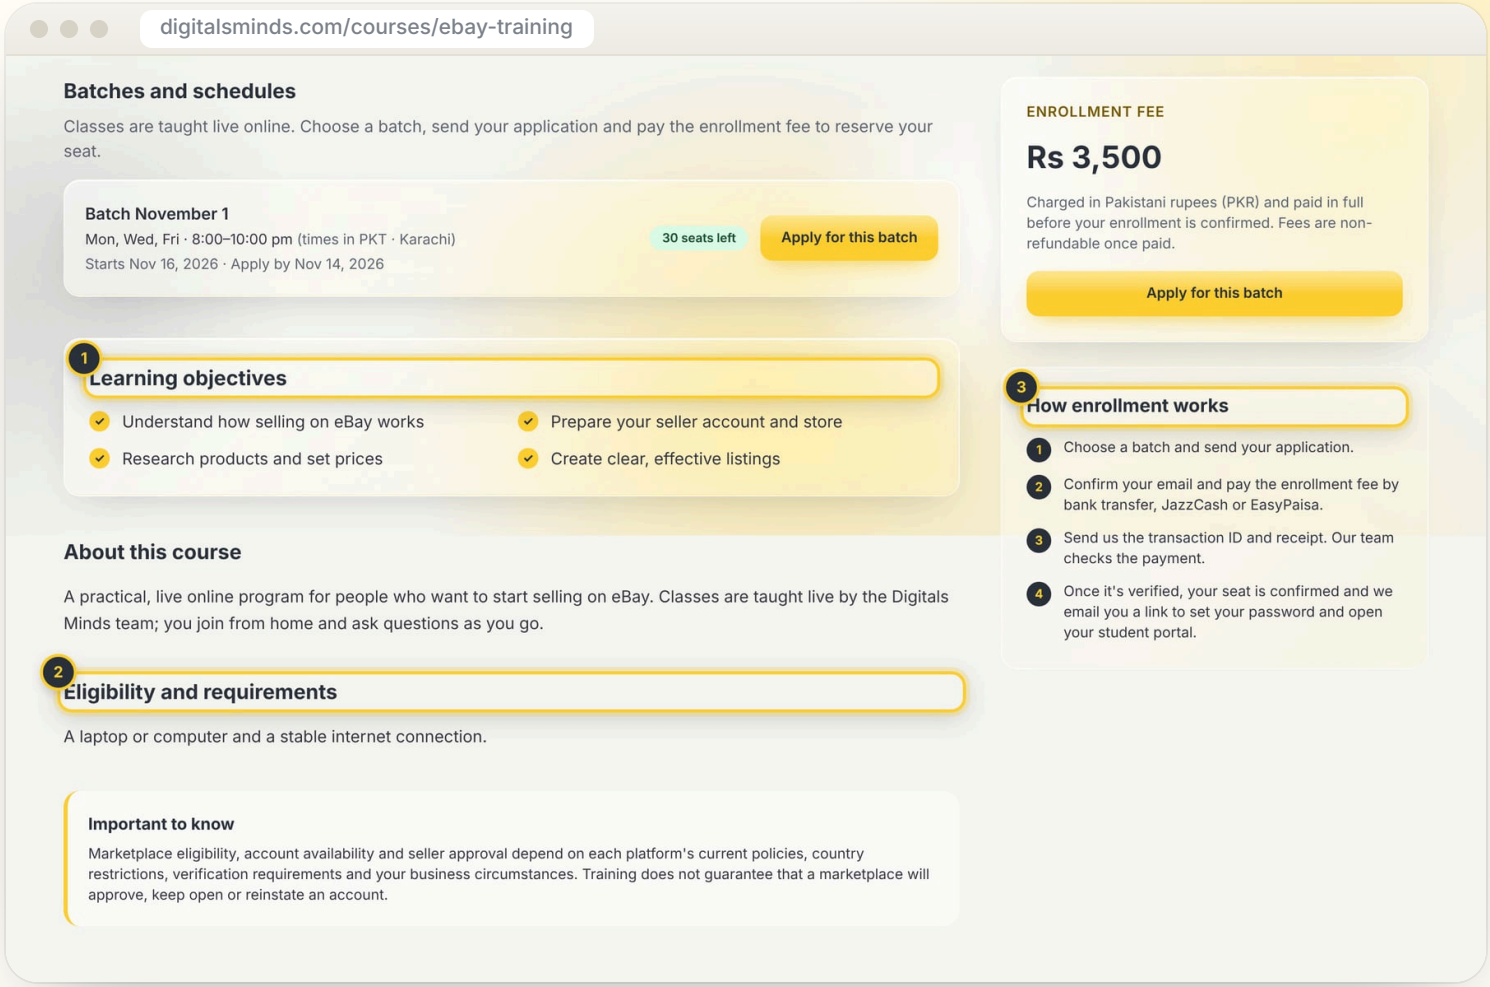

> A batch that is **Full** or past its deadline no longer takes applications. Choose another batch, or contact us.

STEP 3 (CONTINUED)

Check what you'll learn and the requirements

Scroll down the same page before you apply.

1. **Learning objectives**: what the program covers.
2. **Eligibility and requirements**: who can join and what you need, such as a laptop and a stable internet connection. Some categories also show an **Important to know** box (for example, that marketplace approval depends on each platform's policies).
3. **How enrollment works**: the four-step summary of applying, paying and verification.

By applying you accept the **Terms & Conditions** and the **Refund Policy**: fees are non-refundable once paid.

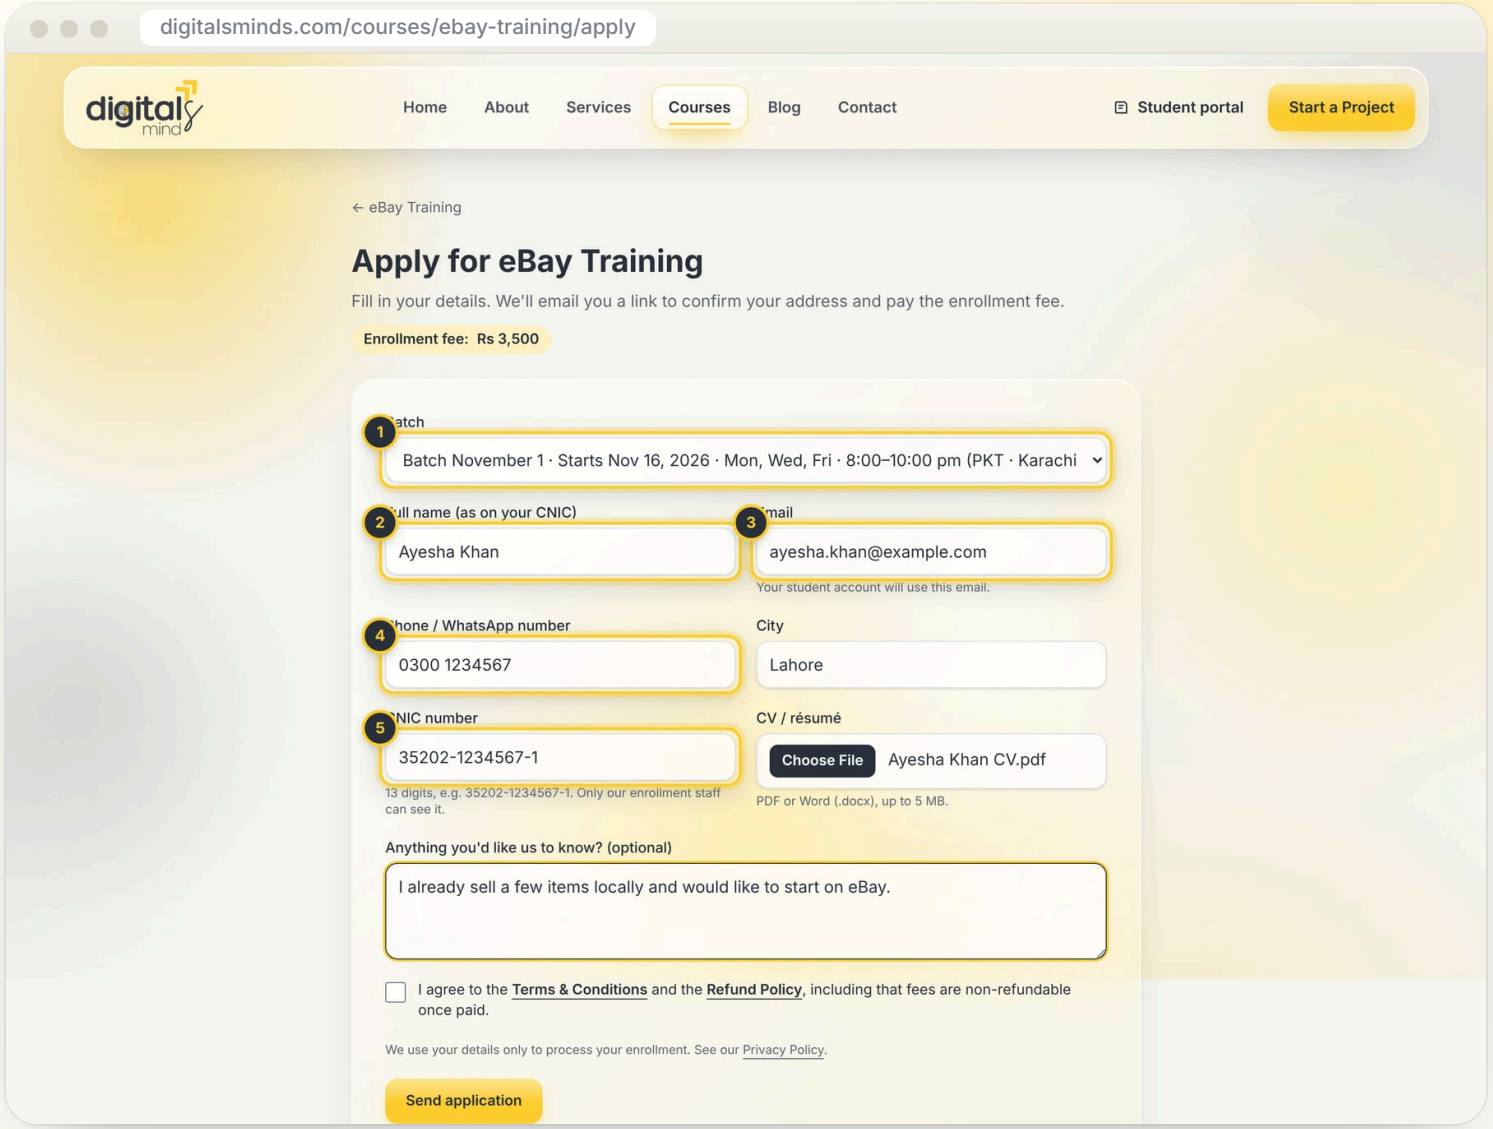

STEP 4

Fill in the application form

The **Apply for [program]** page opens with your batch already chosen.

1. **Batch**: check it's the one you want (you can change it here).
2. **Full name**, exactly as on your CNIC.
3. **Email**: your student account will use this address, so use one you check often.
4. **Phone / WhatsApp number** and **City**.
5. **CNIC number**: 13 digits, e.g. 35202-1234567-1. Only our enrollment staff can see it.

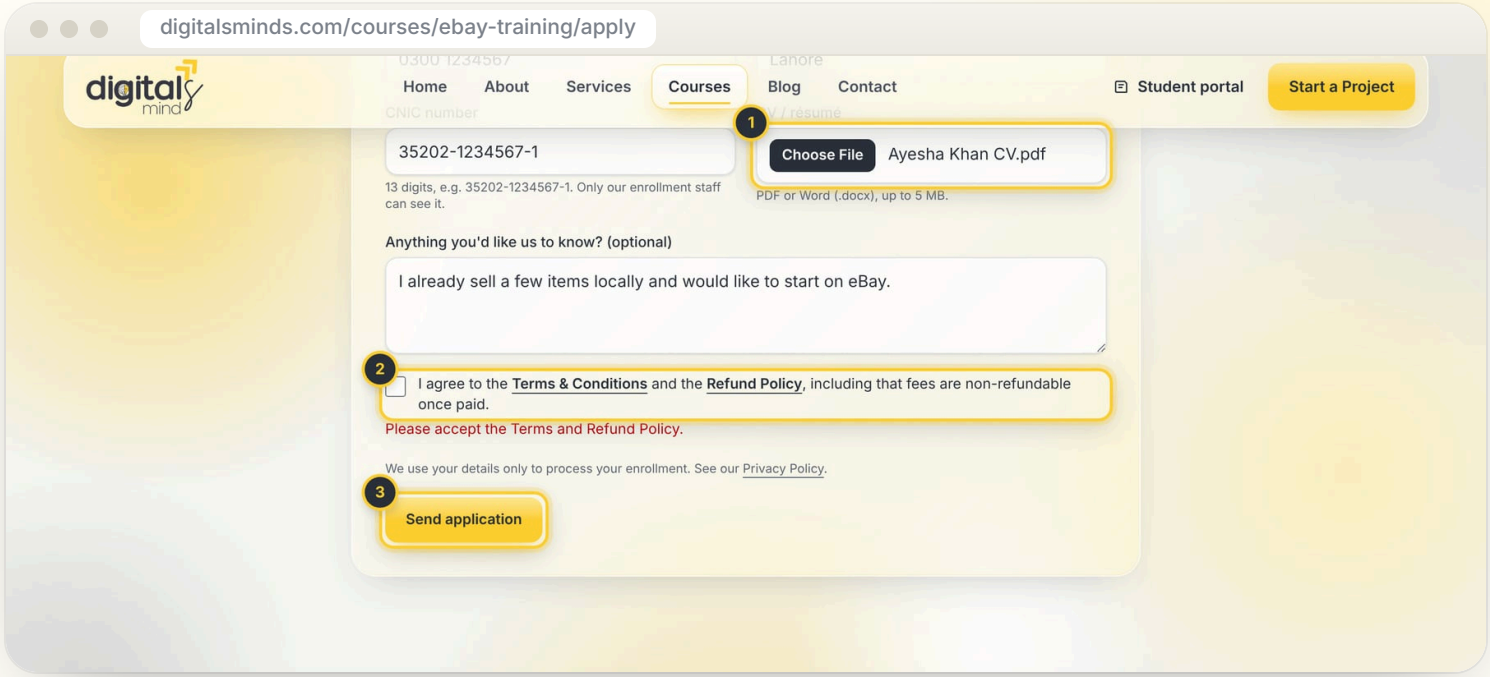

You can also add an optional message for our team.

STEP 4 (CONTINUED)

Attach your CV, accept the terms and send

1. **CV / résumé**: a PDF or Word (.docx) file, up to 5 MB.
2. Tick the box to agree to the **Terms & Conditions** and the **Refund Policy**. If you forget, the form shows "Please accept the Terms and Refund Policy."
3. Click **Send application**.

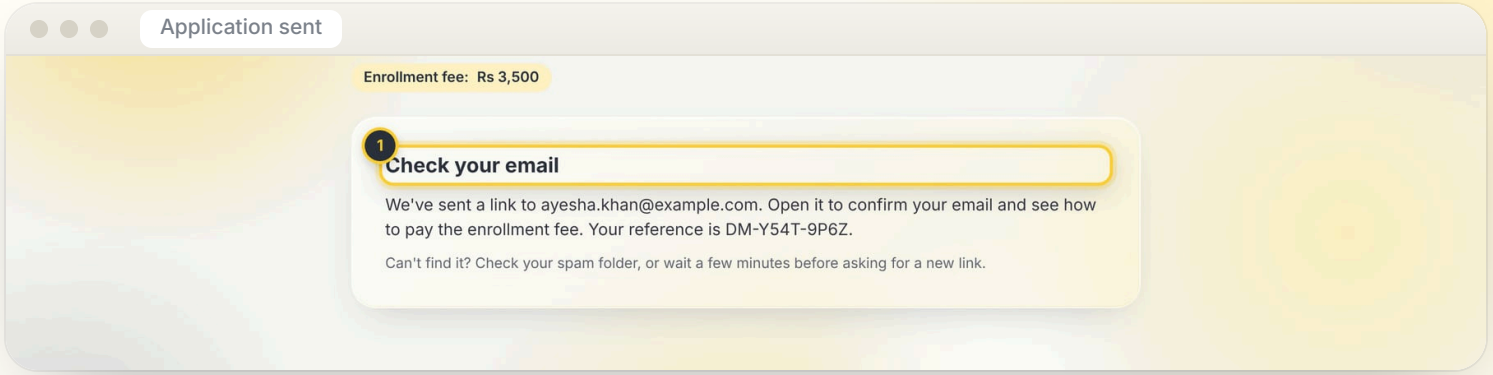

You can apply only once per batch with the same email. If you've already applied, use the link in our email, or ask for a new one on the application page.

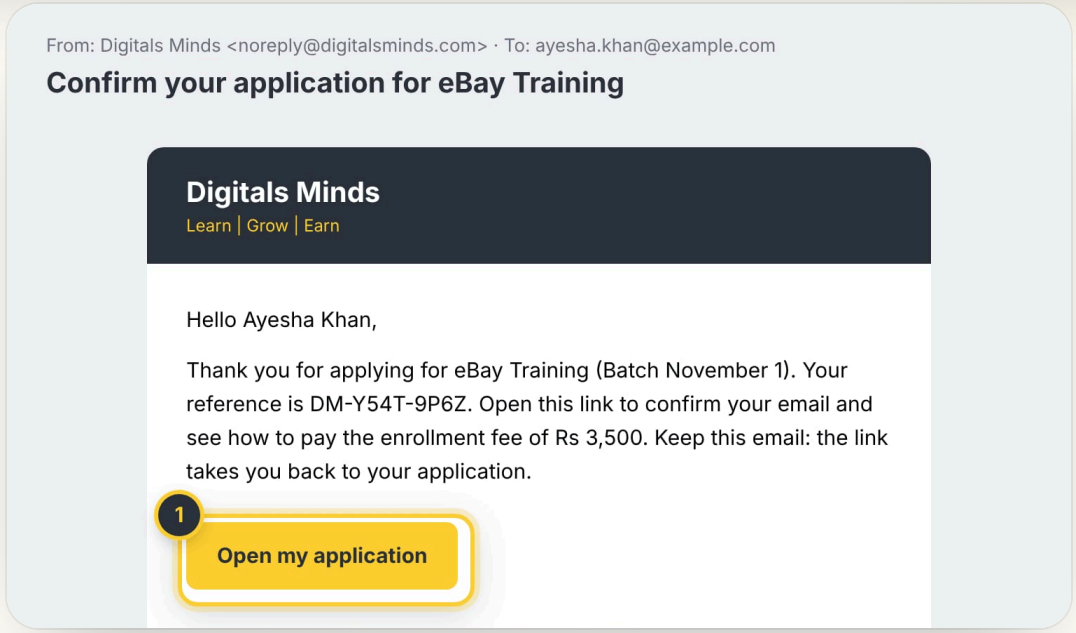

Fields with a problem are highlighted with a short message, e.g. "Enter your 13-digit CNIC number."

STEP 5

Check your email and open your application

1. After sending, you see **Check your email** with your **reference number** (DM-XXXX-XXXX). Status: **Application received**.
2. Open the email **"Confirm your application for [program]"** and click **Open my application**. This confirms your email address and opens your private application page.

Your reference: quote it when you contact us, and use it with your email on the **Find your application** page if you lose the link.

Keep this email. Its link is your private way back to your application. Don't share it. Can't find the email? Check your spam folder.

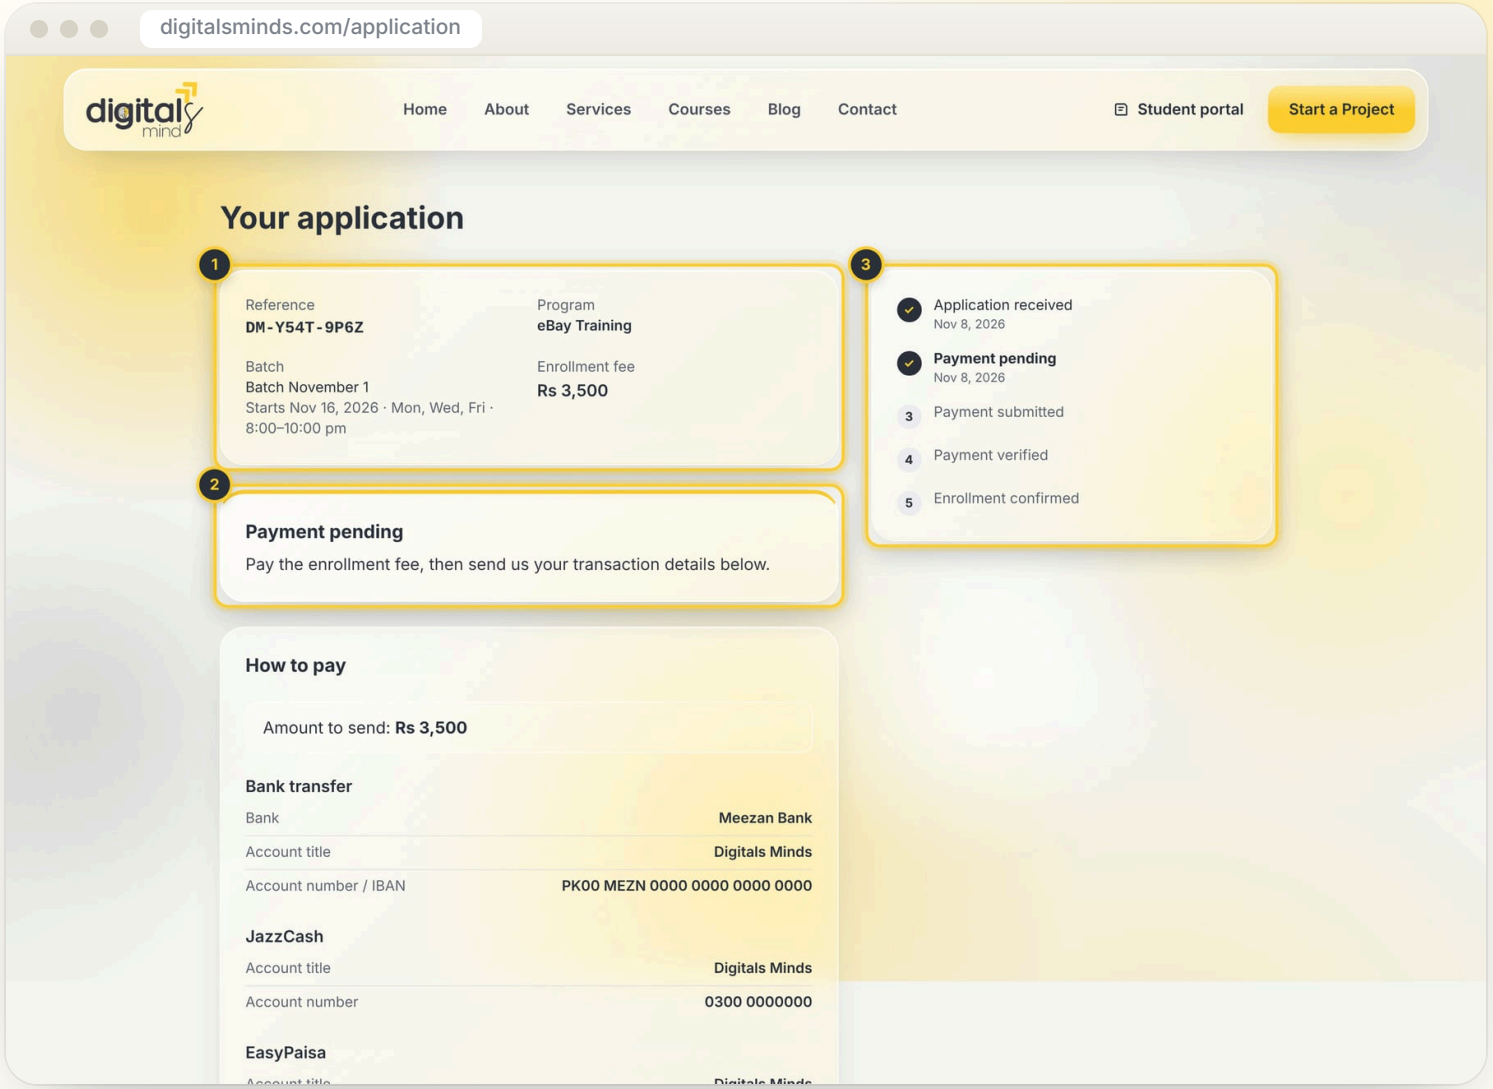

STEP 6

Your private application page

The link opens **Your application**. Status: **Payment pending**.

1. Your **reference**, program, batch and the **enrollment fee** you need to pay.
2. The current stage and what to do next.
3. The stage tracker, which fills in as your application moves forward.

Further down: **How to pay** and **Your payment details** (next two pages).

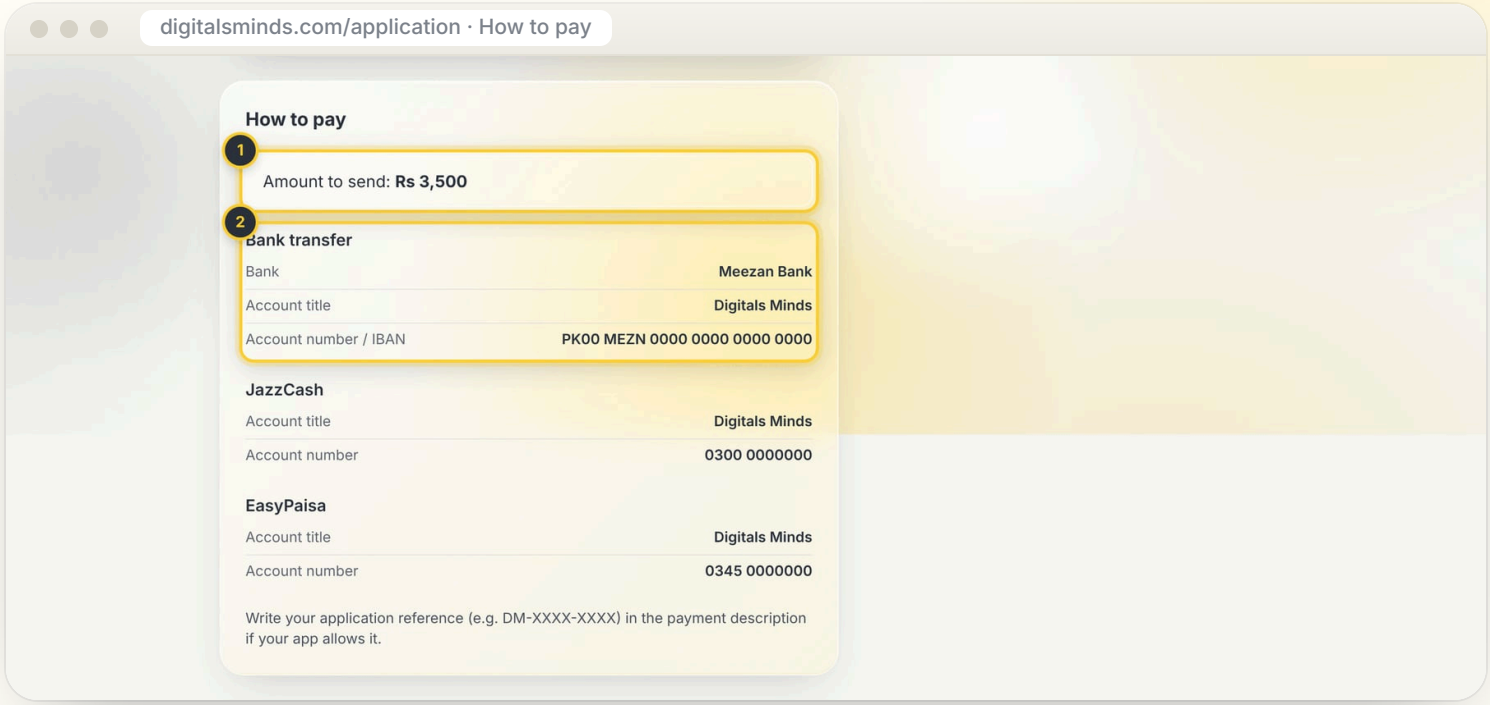

This page is private and no login is needed: your browser remembers the link. On another device, open the email link again.

STEP 7

Follow the payment instructions

You pay the fee yourself, from your own bank or wallet app, using the accounts in **How to pay**.

1. **Amount to send**: send exactly this amount, in full, in PKR.
2. The accounts you can pay to: **Bank transfer**, **JazzCash** or **EasyPaisa**, with the account title and number (bank transfer may also show a QR code to scan). Only the methods we offer are listed.

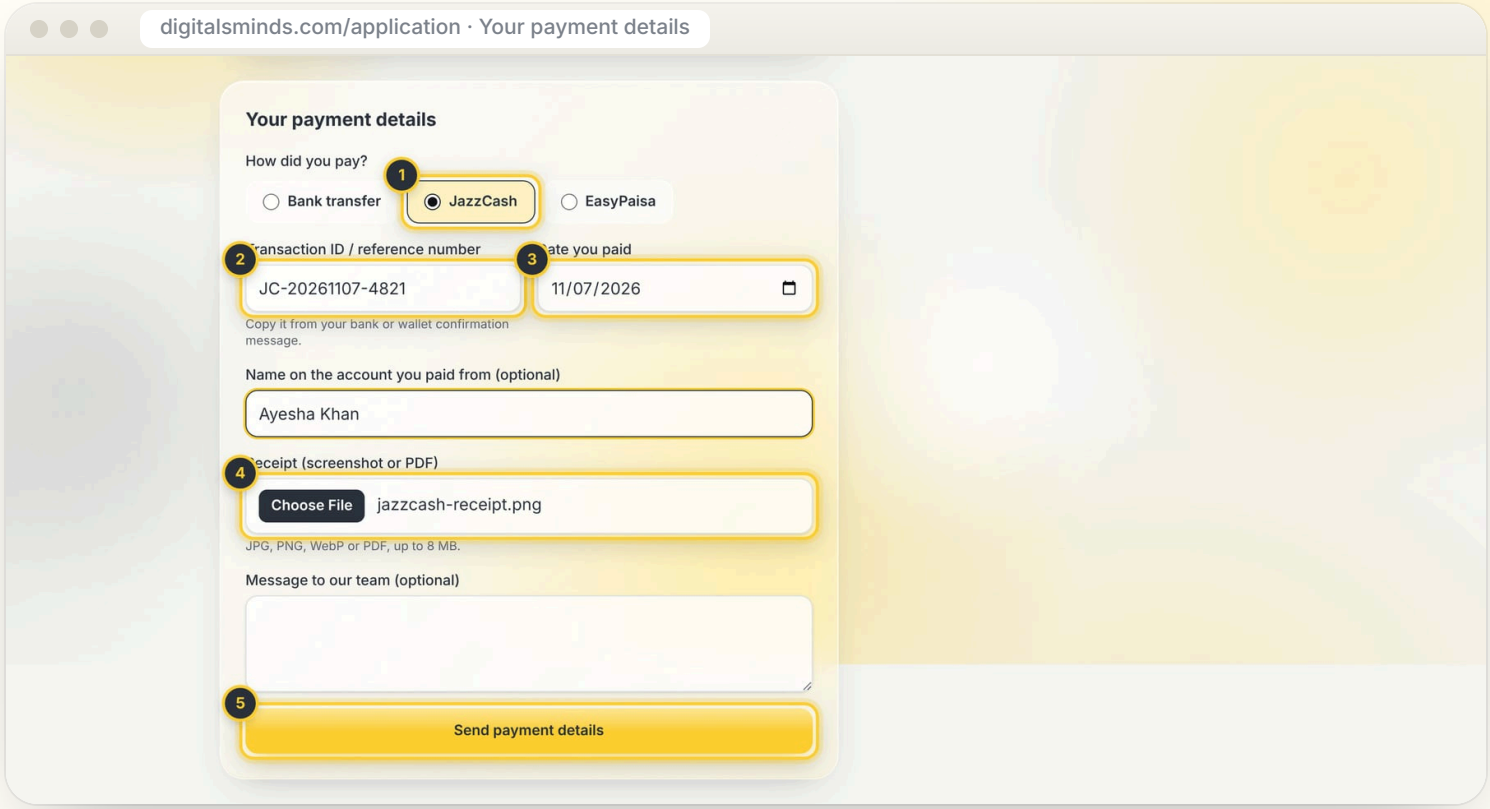

Only pay to the accounts shown on your own application page. The account details in this guide are **examples**, not real accounts. Keep your transaction ID and a screenshot or PDF of the receipt.

STEP 8

Send us your payment details

After paying, fill in **Your payment details** on the same page.

1. **How did you pay?** Choose the method you used.
2. **Transaction ID / reference number**, copied from your bank or wallet confirmation message.
3. **Date you paid**. You can also add the name on the account you paid from and a message.
4. **Receipt**: a screenshot or PDF (JPG, PNG, WebP or PDF, up to 8 MB).
5. Click **Send payment details**.

Each transaction ID can be used only once. If a payment didn't go through and you paid again, send the **new** transaction's ID.

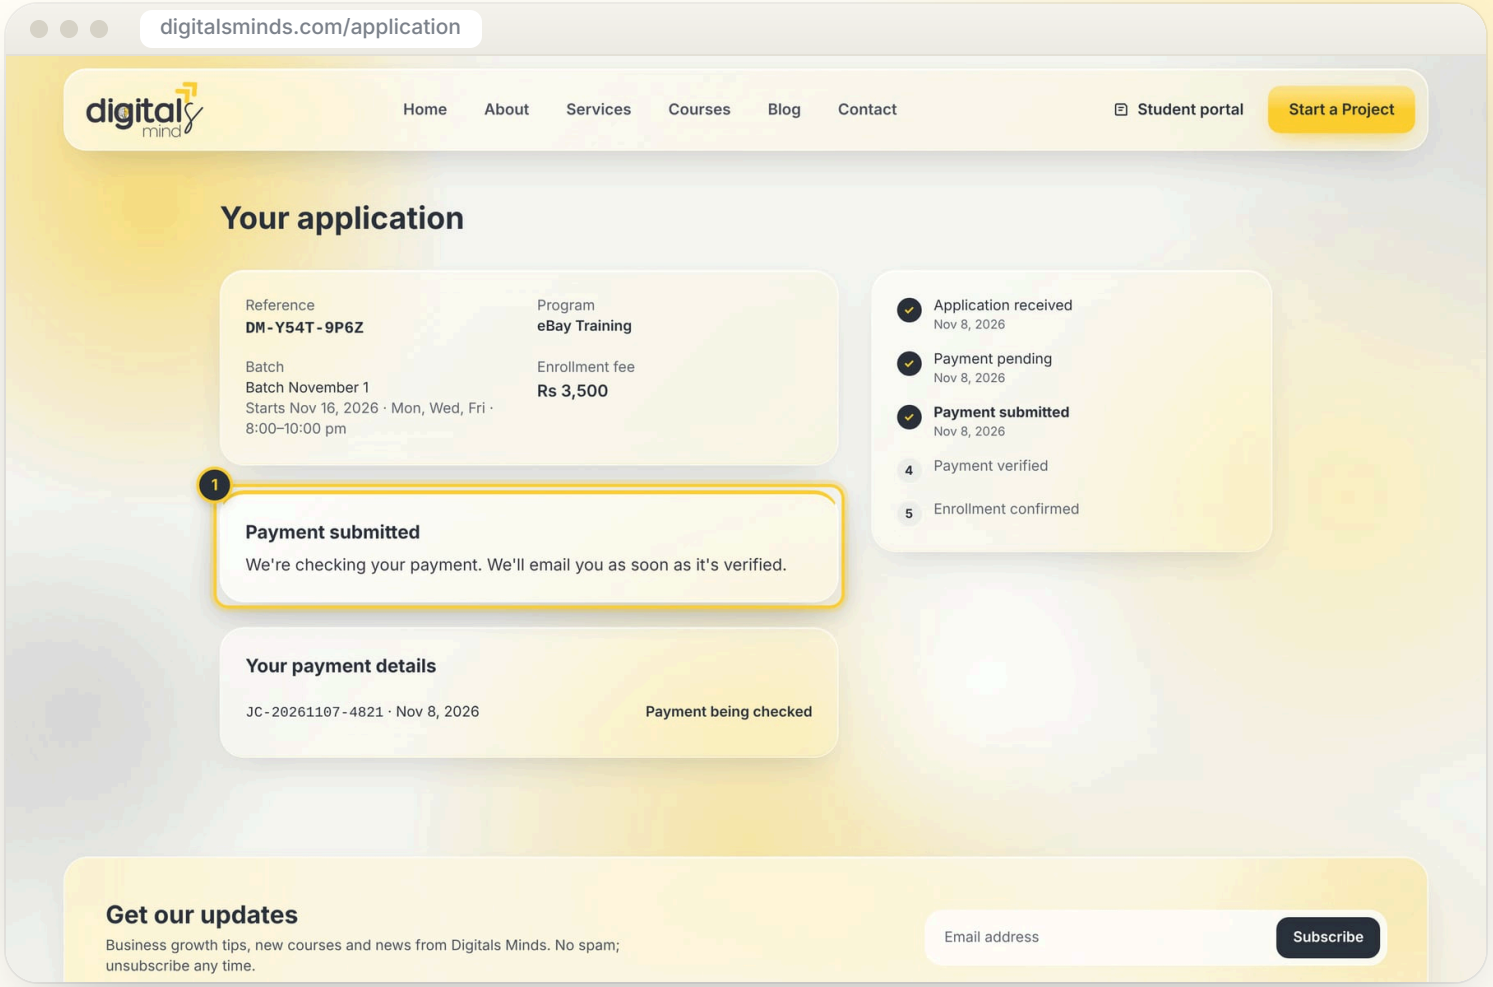

STEP 9

Payment submitted: our team checks it

1. Your status changes to **Payment submitted**: "We're checking your payment. We'll email you as soon as it's verified." Your payment shows **Payment being checked**.

You also get an email, **"We received your payment details for [program]"**.

A Super Admin then compares your details with the actual account statement. This is a **manual check**, not automatic.

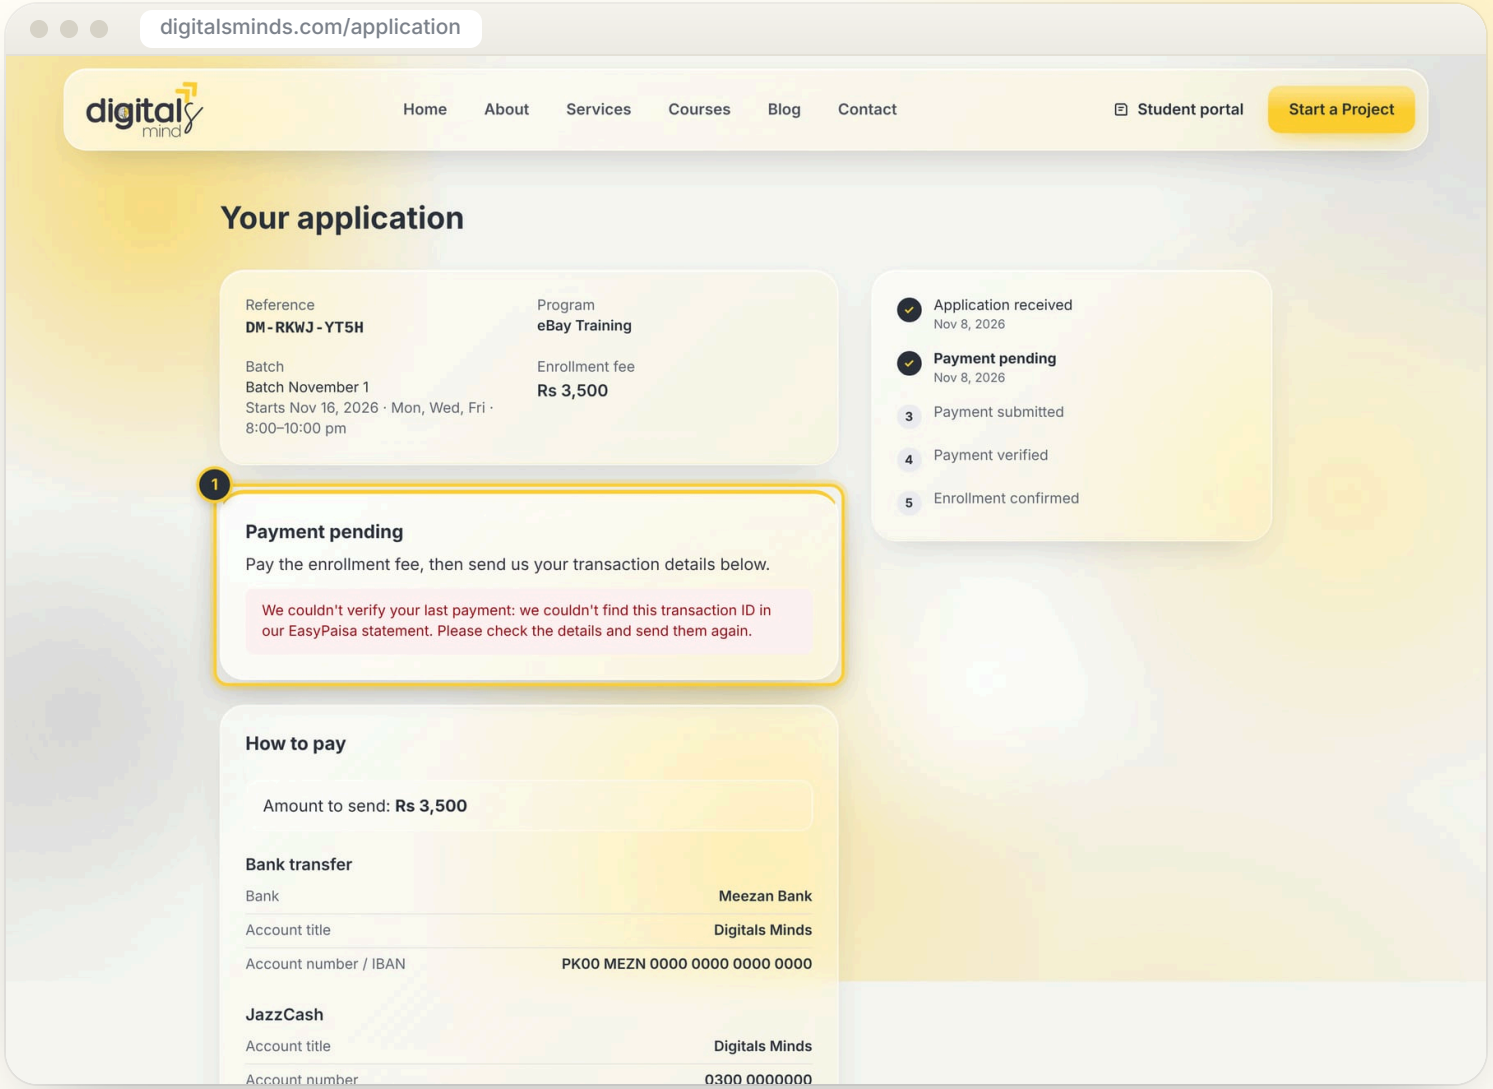

This is not an approval yet. Your seat is not confirmed and no student account exists until the payment is verified. You don't need to send your details again while you wait.

IF A PAYMENT CAN'T BE VERIFIED

Fix the details and send them again

If our team can't find your payment (for example, a wrong transaction ID), they mark it **not verified** with a reason.

1. Your application goes back to **Payment pending** and shows the reason: "We couldn't verify your last payment: ...".
2. Check your payment, then send the correct details again in **Your payment details**.

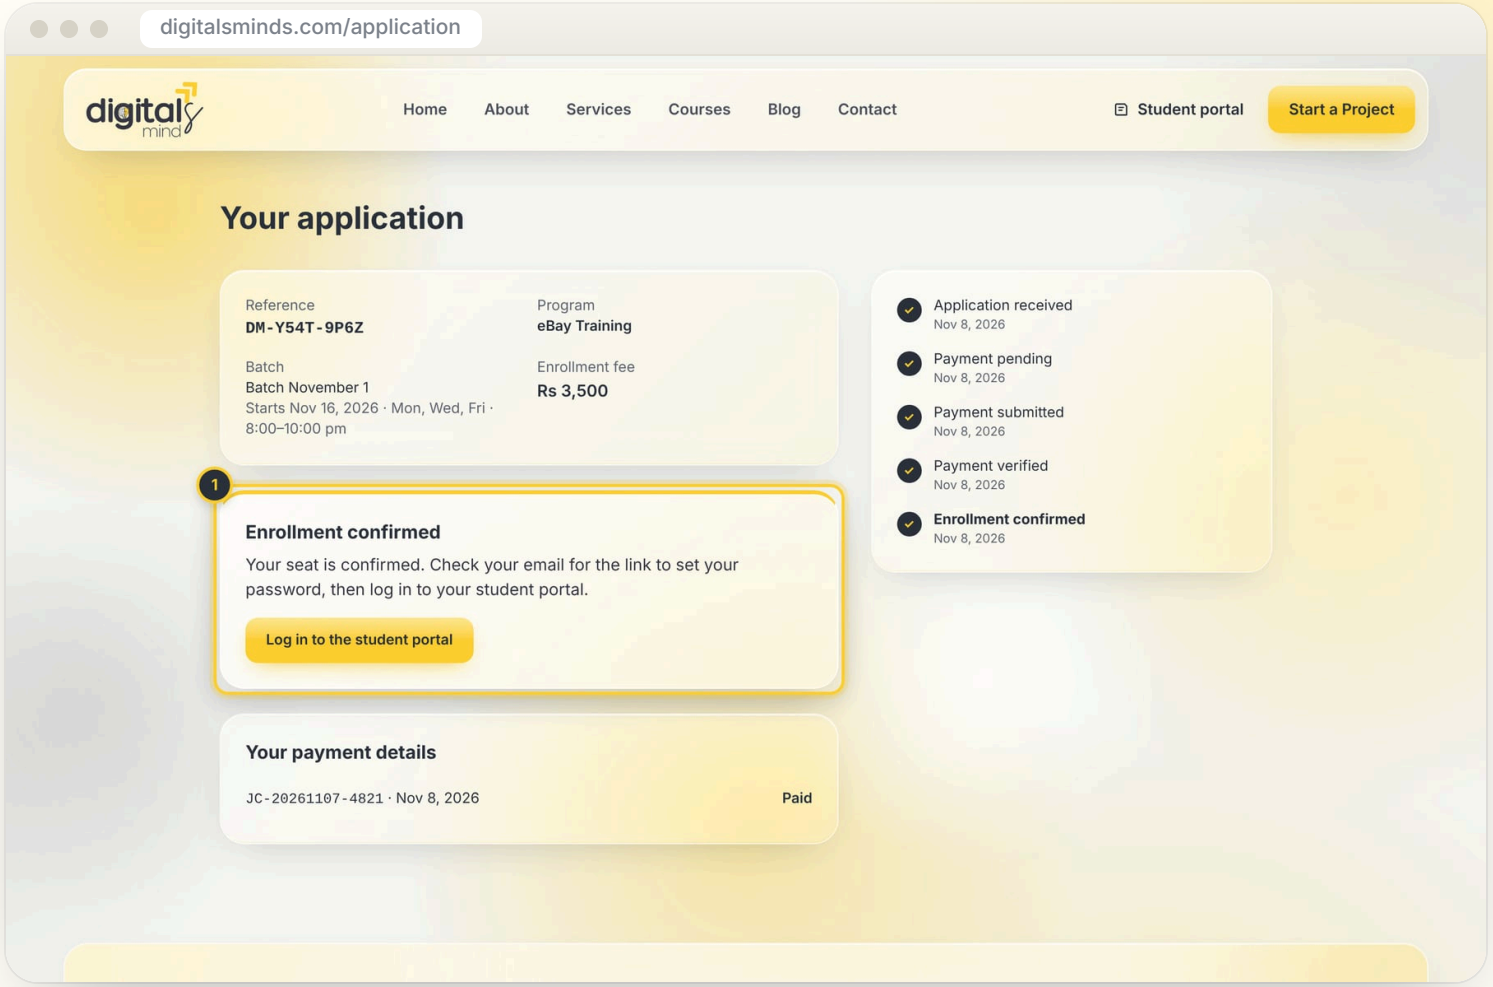

We also email you **"We couldn't verify your payment"** with a **new link** to your application. Earlier links stop working, so use the newest email.

STEP 10

Payment verified: your seat is confirmed

1. Your application page shows **Enrollment confirmed**, your payment is marked **Paid**, and a **Log in to the student portal** button appears.

At the same moment your **student account** is created, and we email you a link to activate it (next page).

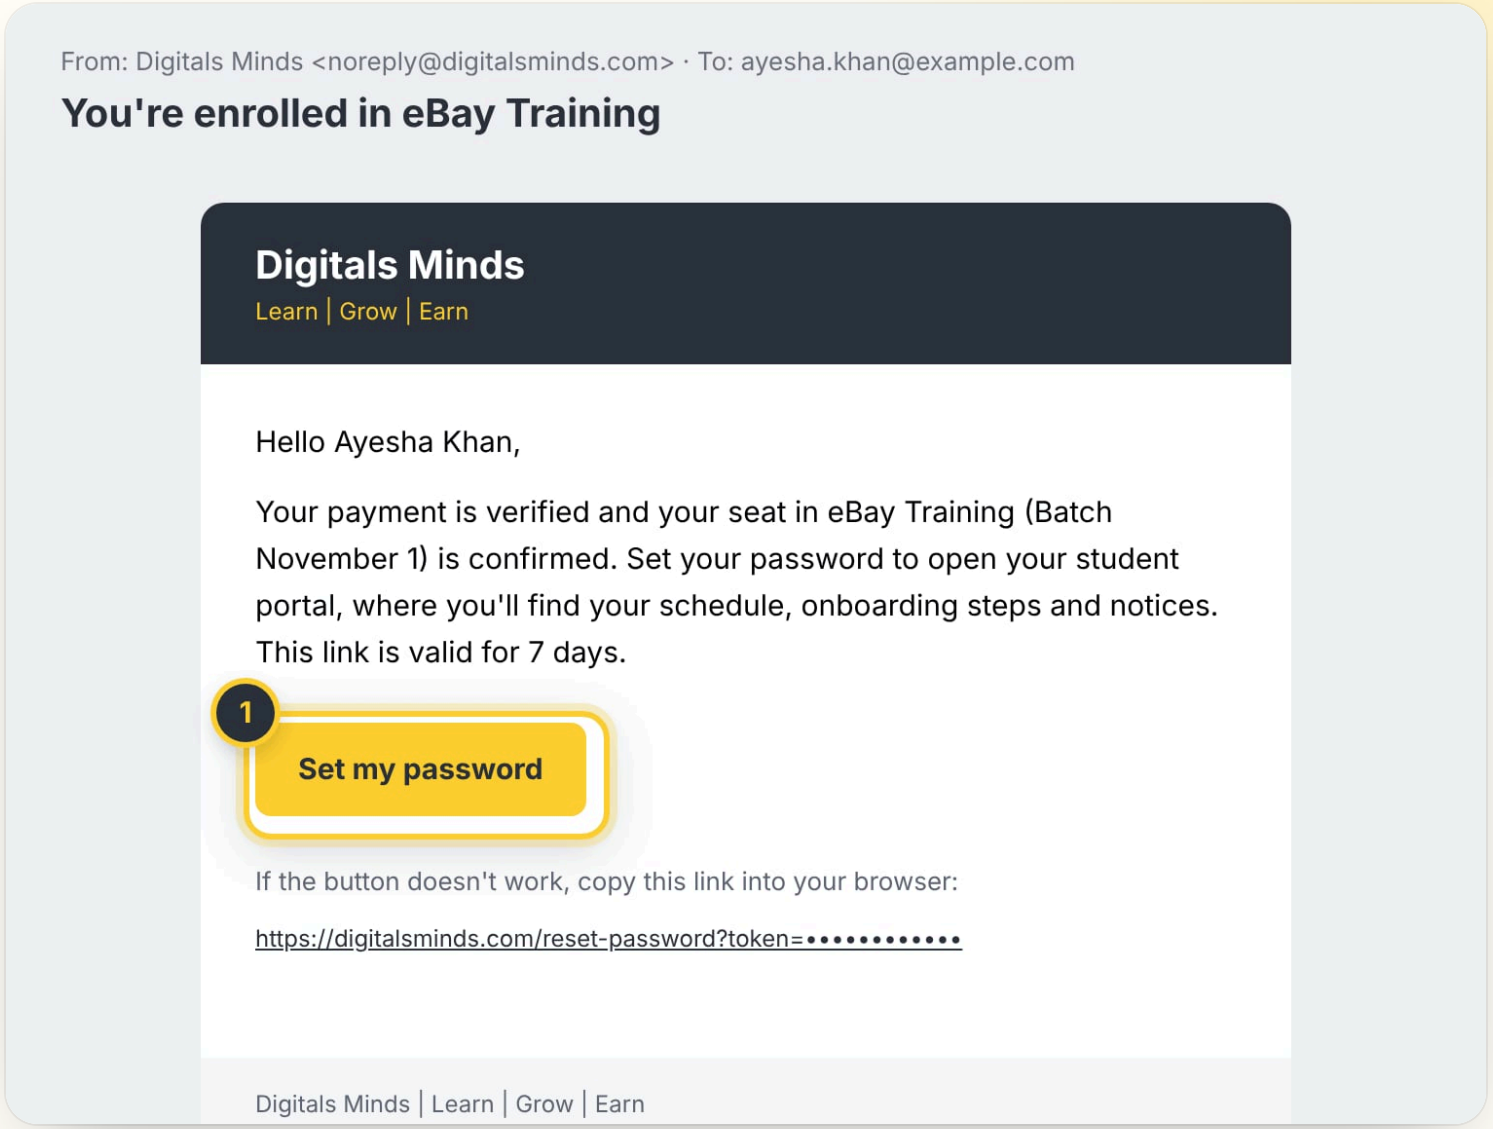

This is the step that depends on our team: an enrollment is confirmed only after a person has checked that the full fee arrived.

STEP 11

Open your welcome email

You receive **"You're enrolled in [program]"**. It confirms your payment and your seat, and contains the link to activate your student account.

1. Click **Set my password**. The link is valid for **7 days**.

If you studied with us before, the email says **Log in** instead, and you use your existing password.

The link only works for you: don't forward it. If it has expired, use **Forgot your password?** on the login page with the same email.

STEP 12

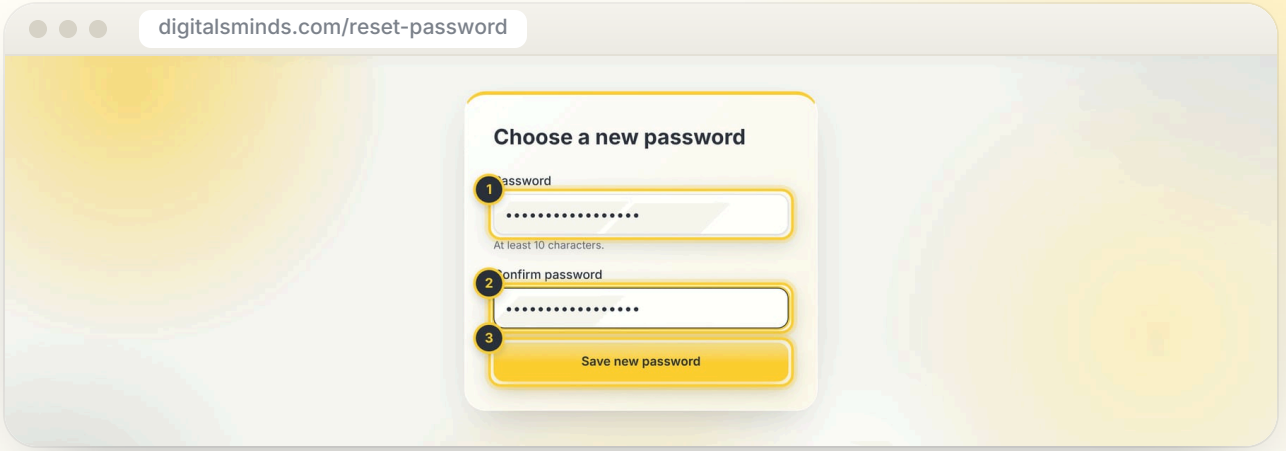

Set your password, then log in

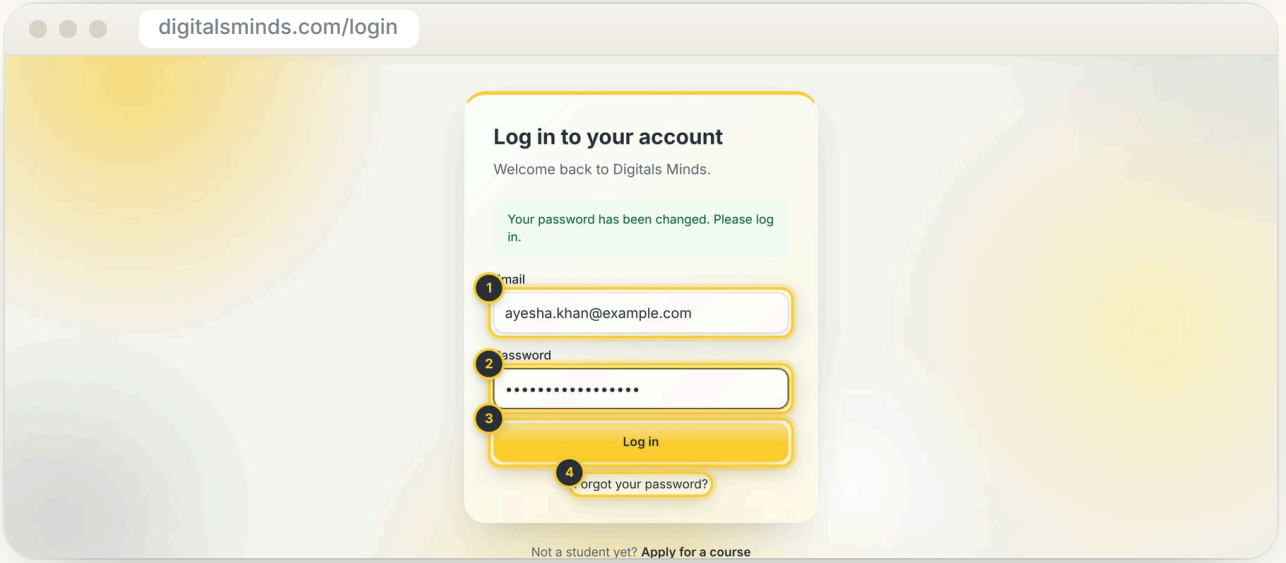

Choose a new password (from the email link):

1. Type a password of at least 10 characters.
2. Type it again to confirm.
3. Click **Save new password**. You're taken to the login page.

Log in to your account (also via **Student portal** in the top menu):

1. Your **email** (the one you applied with).
2. Your new **password**.
3. Click **Log in**. You arrive at your dashboard.
4. Forgot it later? **Forgot your password?** emails you a reset link.

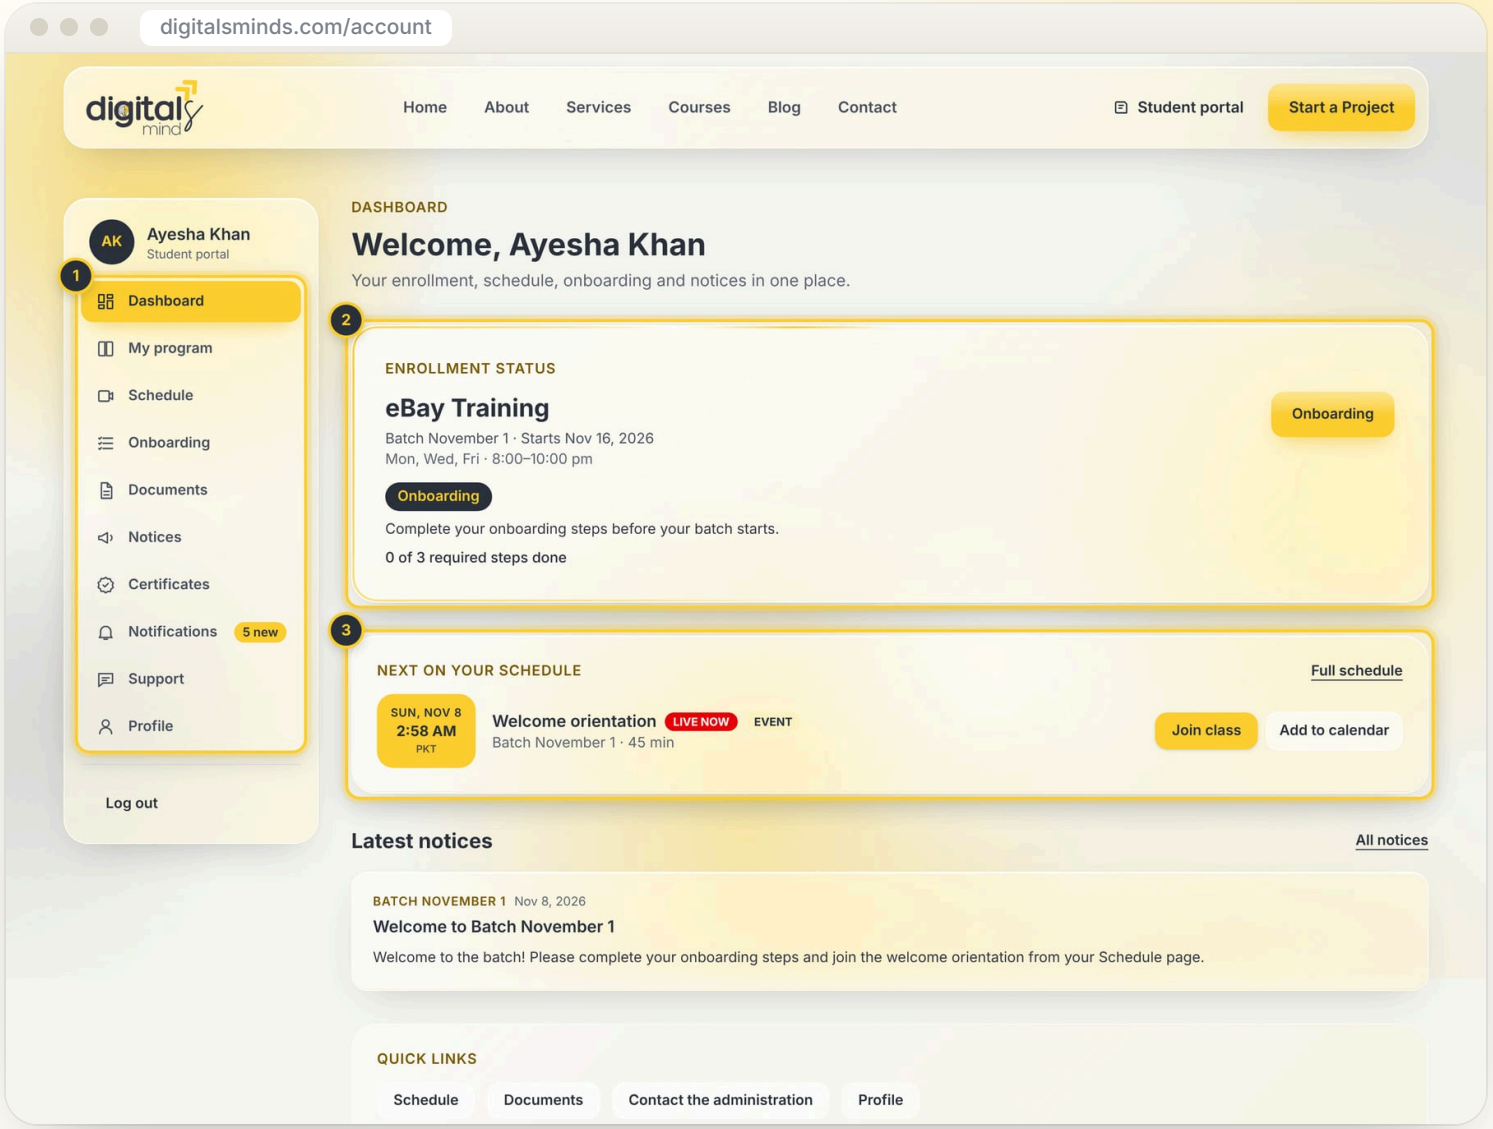

STEP 13

Your dashboard

After logging in you land on the **Dashboard**. Your first visit moves your enrollment to **Onboarding**.

1. **Portal menu**: Dashboard, My program, Schedule, Onboarding, Documents, Notices, Certificates, Notifications (with a "new" count), Support and Profile. On a phone it appears as tabs at the top.
2. **Enrollment status**: your program, batch, stage and onboarding progress.
3. **Next on your schedule**, with **Join class** and **Add to calendar**.

Below: **Latest notices** and **Quick links** (Schedule, Documents, Contact the administration, Profile).

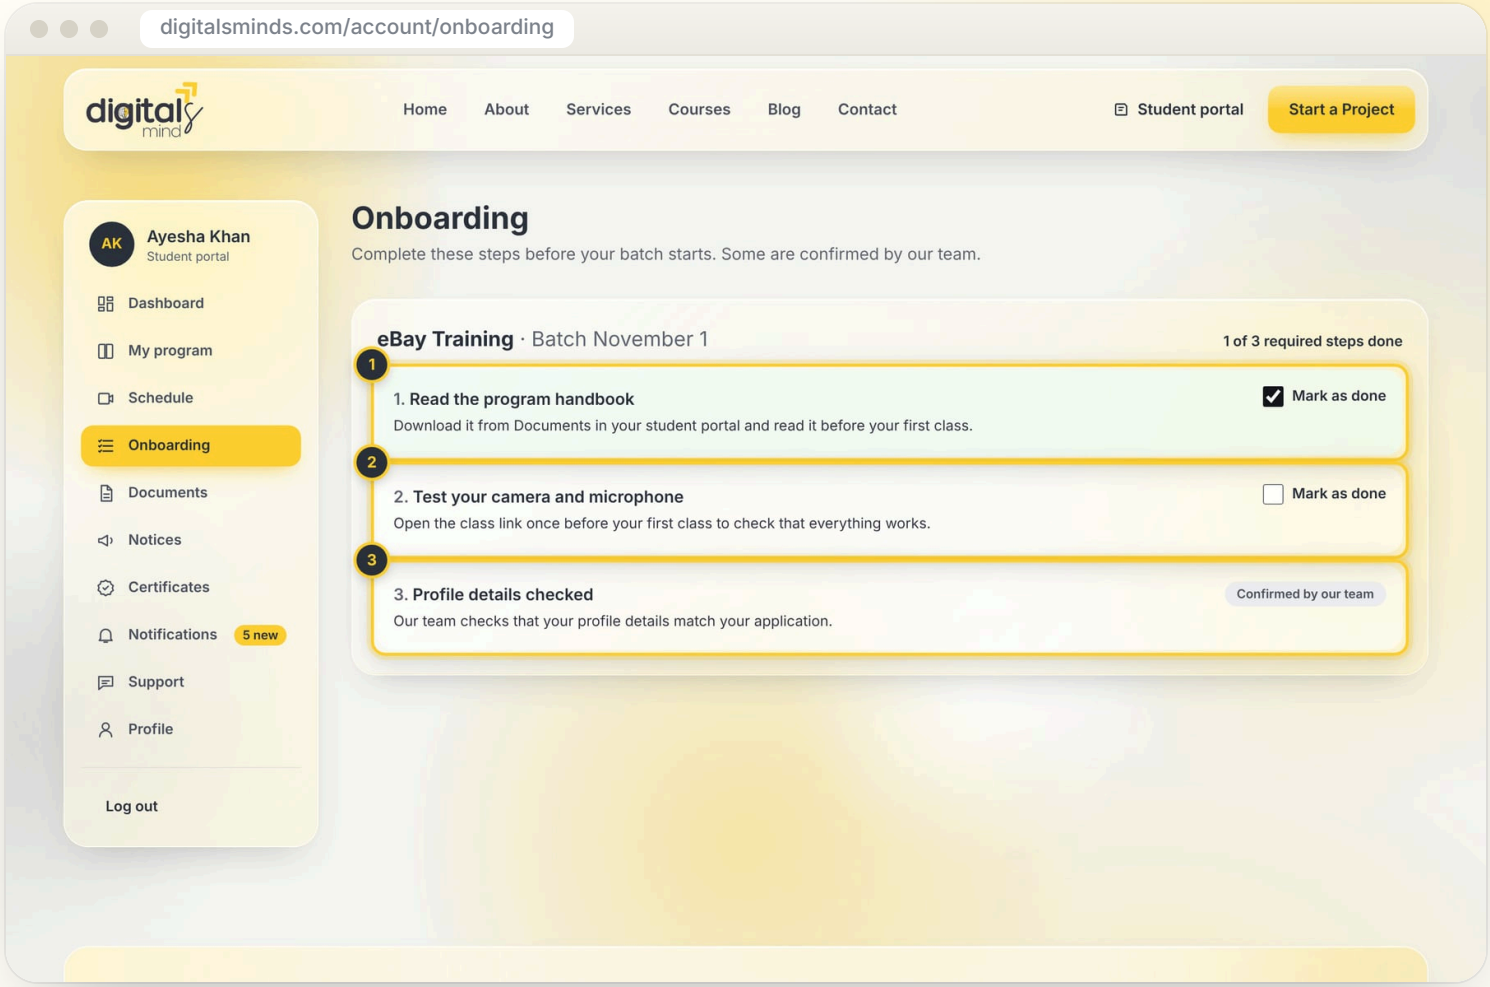

STEP 14

Complete your onboarding checklist

Open **Onboarding**. The steps are set by our team for your program or batch, so yours may differ from this example.

1. A finished step: you ticked **Mark as done**.
2. A step still to do. Read its instructions, do it, then tick **Mark as done**.
3. Steps marked **Confirmed by our team** are ticked by our staff, not by you.

The counter shows "X of Y required steps done". When every required step is done, you automatically become an **Active student**. Steps marked **Optional** don't count.

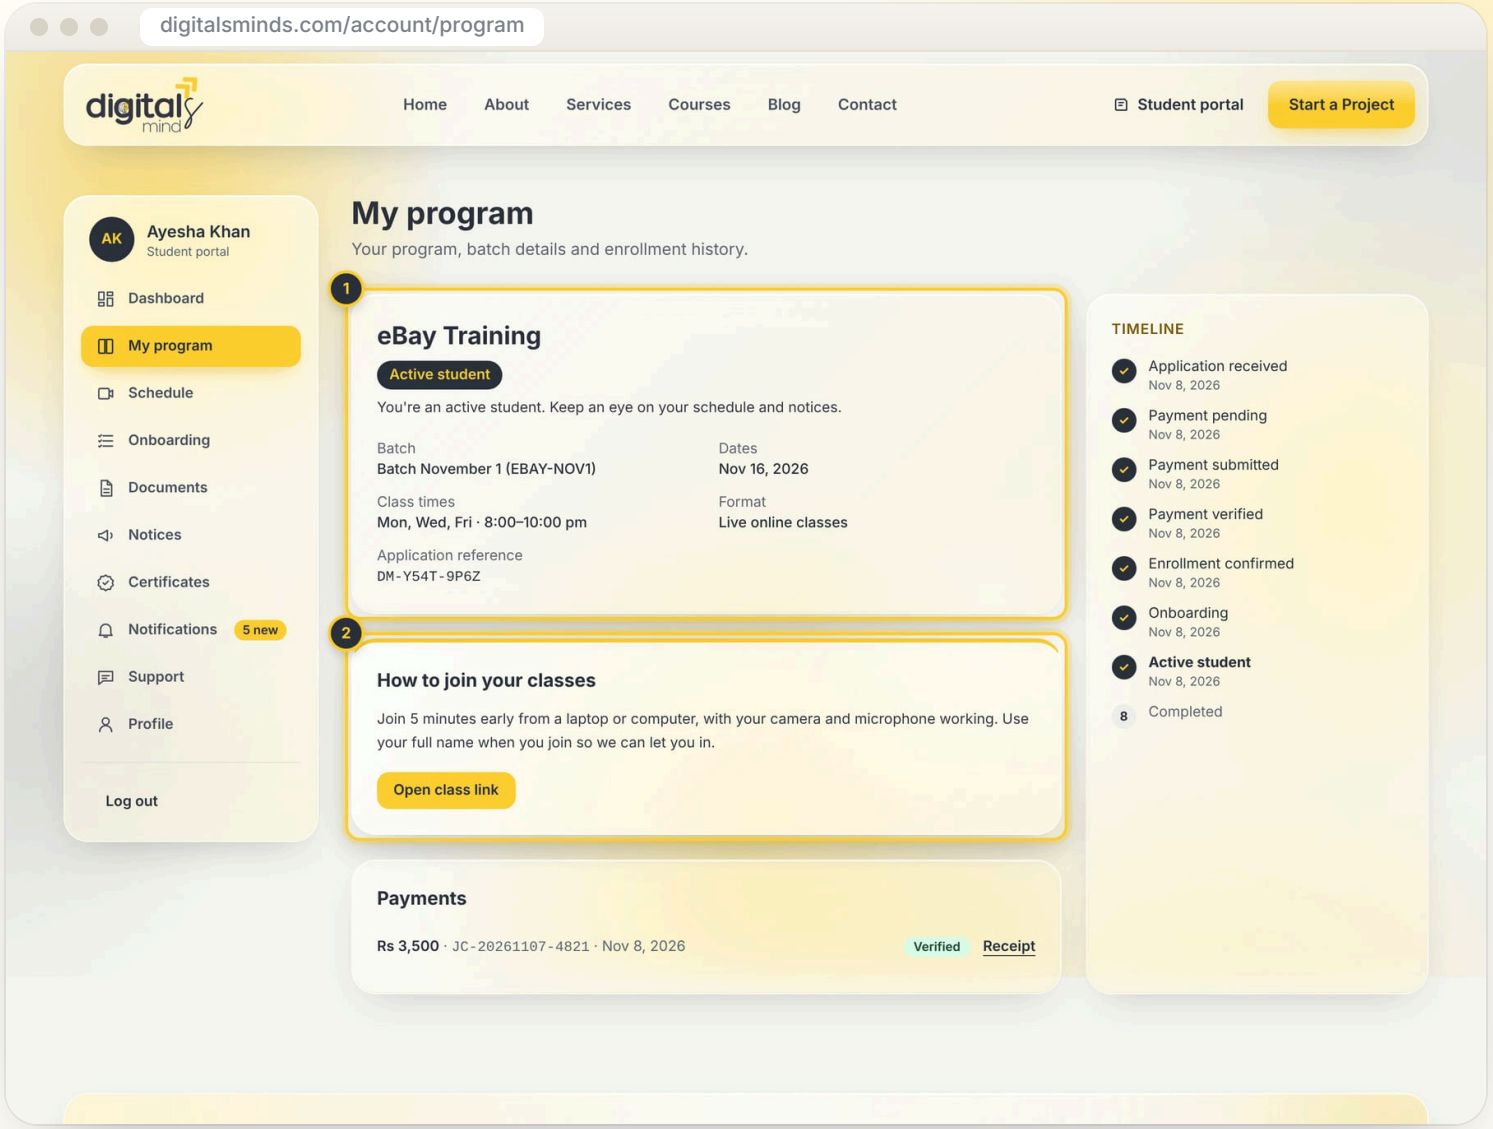

STEP 15

Find your batch information

Open **My program**.

1. Your stage (here **Active student**), **batch** name and code, **dates**, **class times**, **format** and your **application reference**.
2. **How to join your classes**: joining instructions from our team and the **Open class link** button for your batch's meeting room.

Also here: your **Payments** (with receipt) and the **Timeline** of every stage with its date.

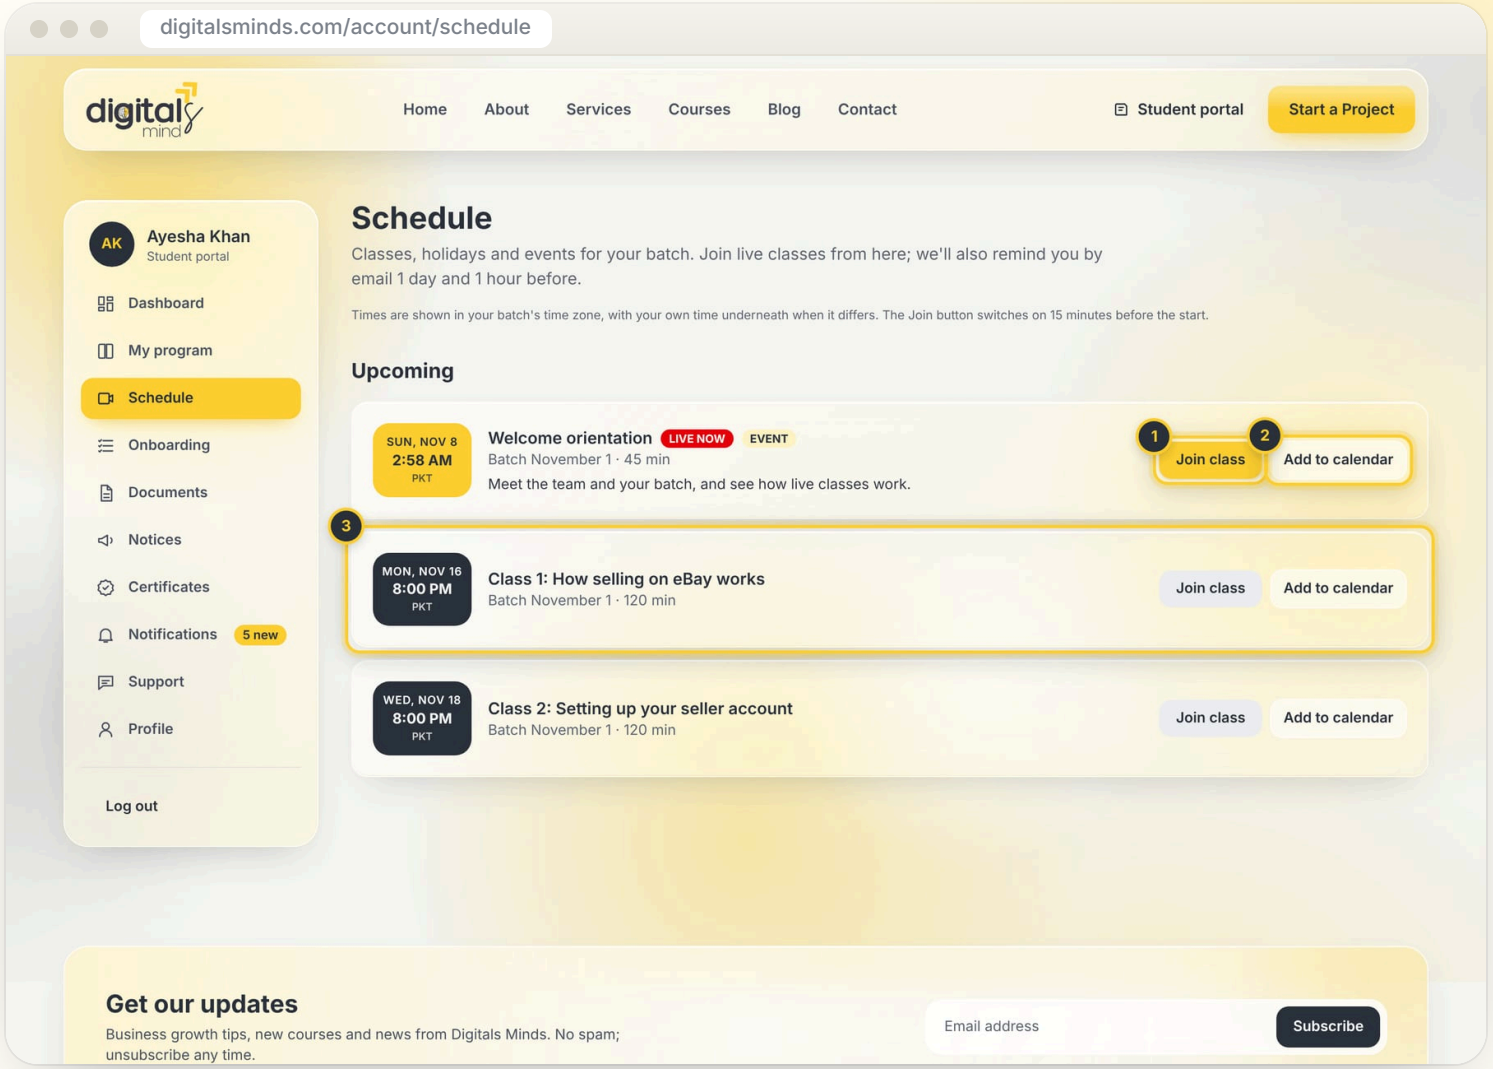

Joining details are shown only to current students of the batch. Please don't share your class link.

STEP 16

Check your schedule and join live sessions

Open **Schedule** to see your batch's classes, events and holidays.

1. **Join class** switches on 15 minutes before the start. A session that is running shows **Live now**.
2. **Add to calendar** saves the session to your phone or computer calendar.
3. Upcoming classes show their day, time and length. Before the 15-minute window the Join button is greyed out.

Times are in your batch's time zone (e.g. PKT). If you're abroad, your own time is shown underneath. We also email reminders **1 day** and **1 hour** before each class, and tell you about changes, holidays and cancellations.

STEP 17

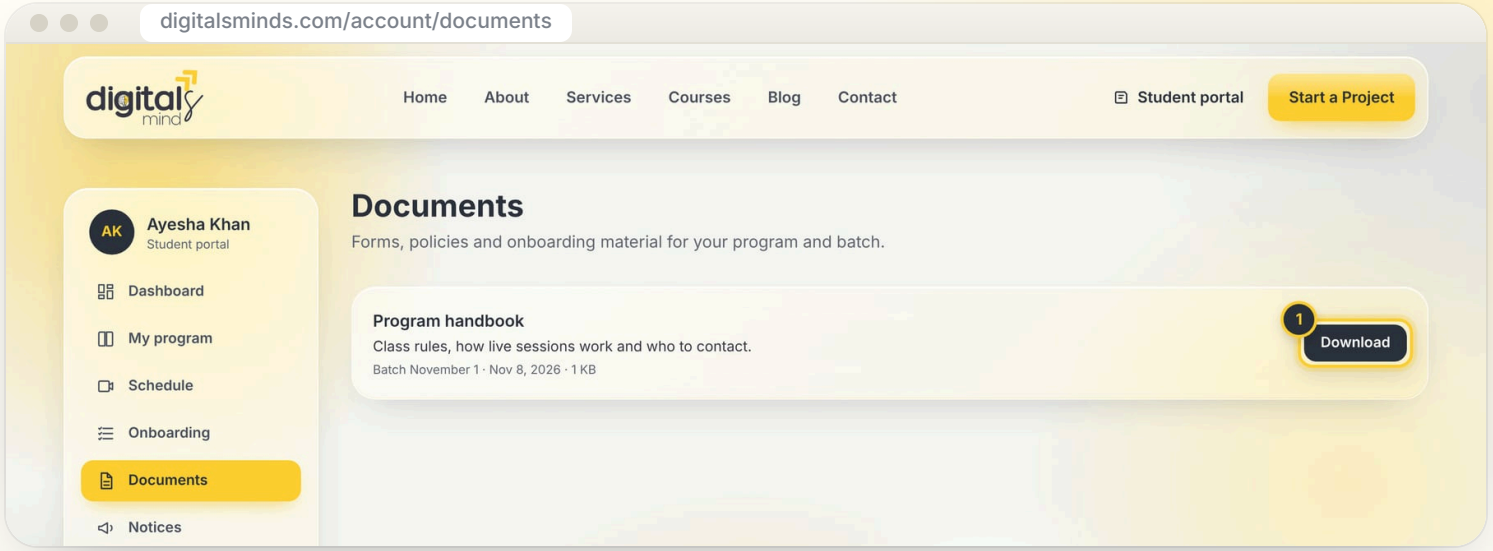

Documents and notices

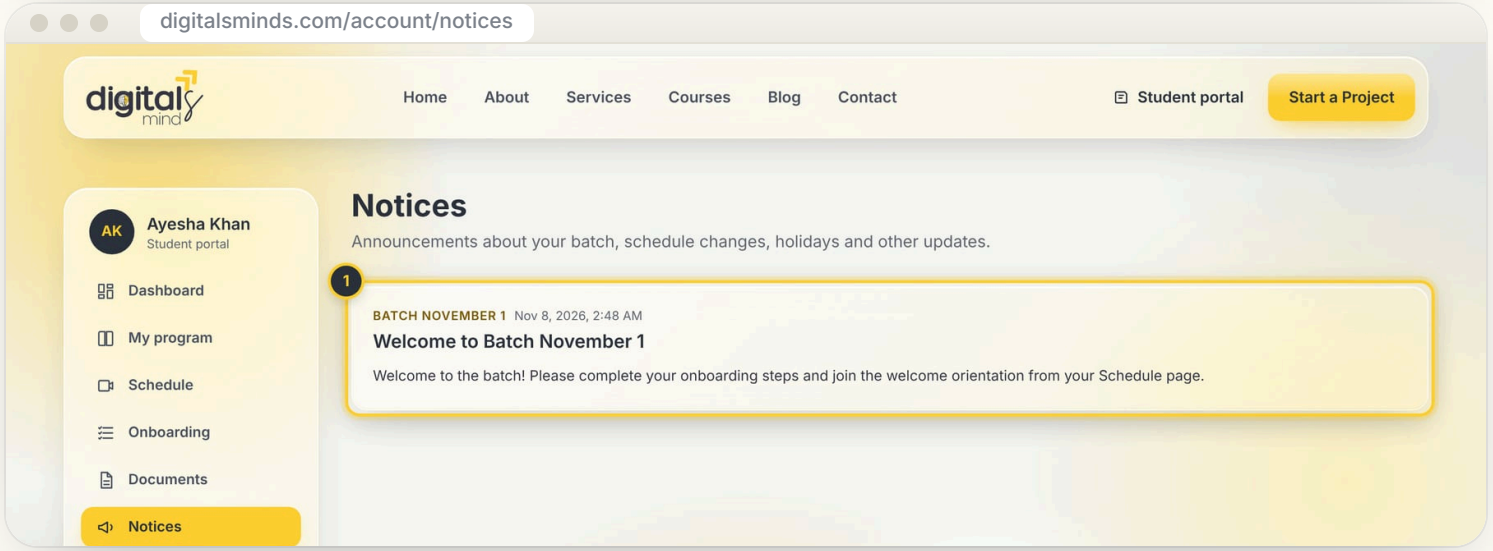

Documents: forms, policies and onboarding material shared with your program or batch.

1. Click **Download** to save a document.

Notices: announcements from our team about your batch, schedule changes, holidays and other updates.

1. Each notice shows who it's for (e.g. your batch), the date and the message. Important notices may also be emailed.

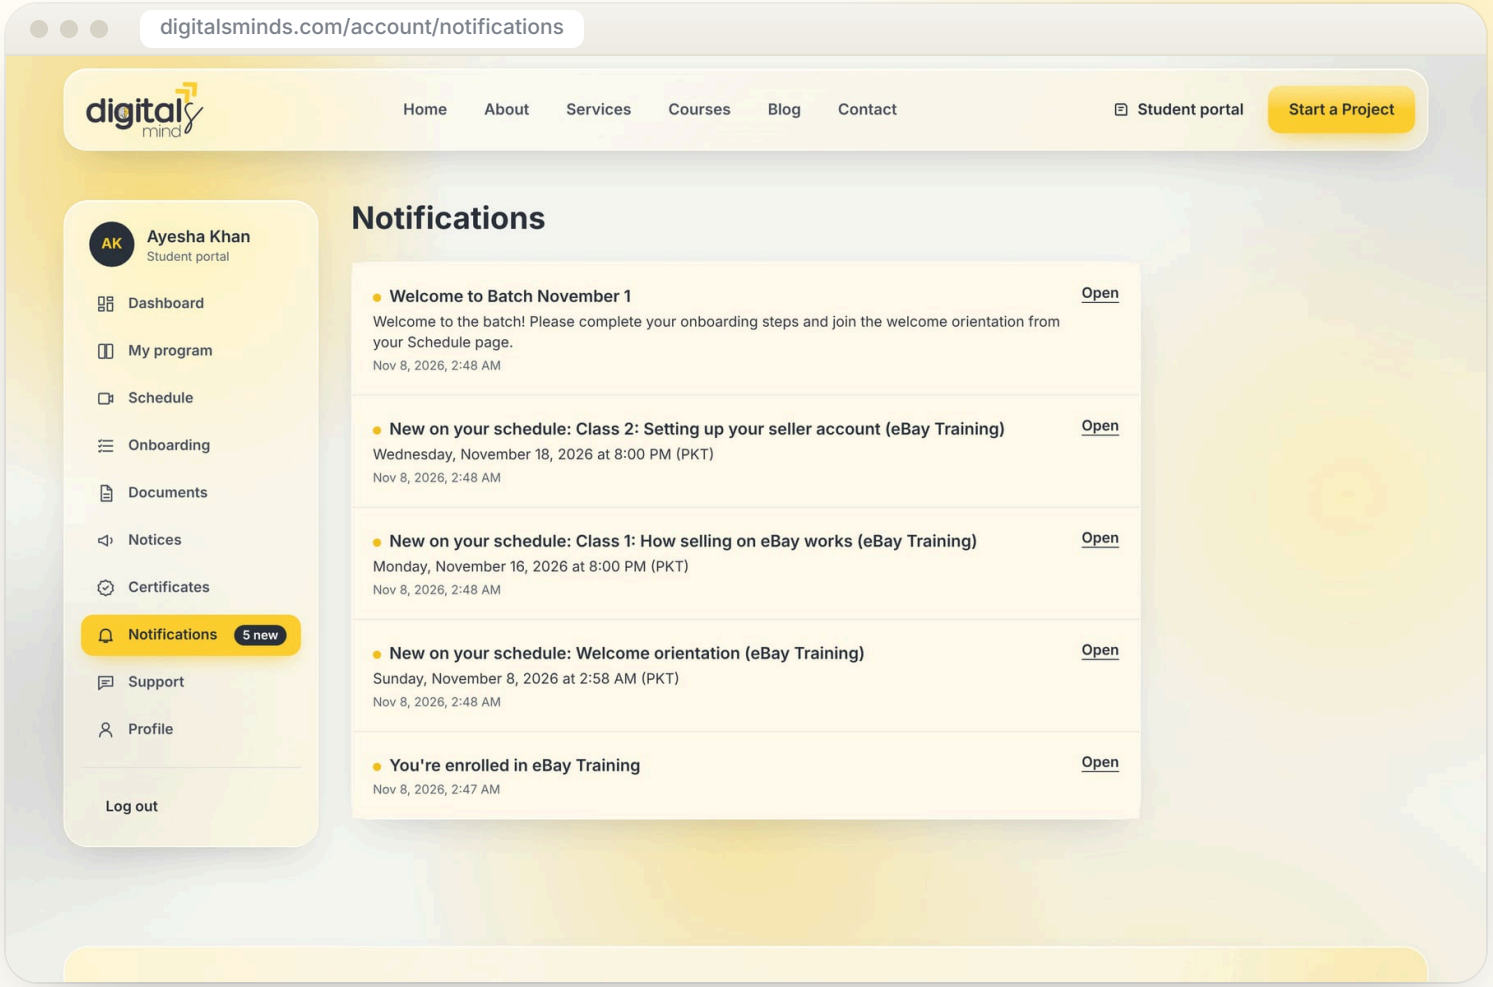

STEP 17 (CONTINUED)

Notifications

Notifications collects every update in one list: new classes on your schedule, schedule changes, notices and enrollment updates.

The menu shows how many are new (e.g. **5 new**). Click **Open** on a notification to go to the page it's about.

Check your portal regularly, especially in the days before your batch starts.

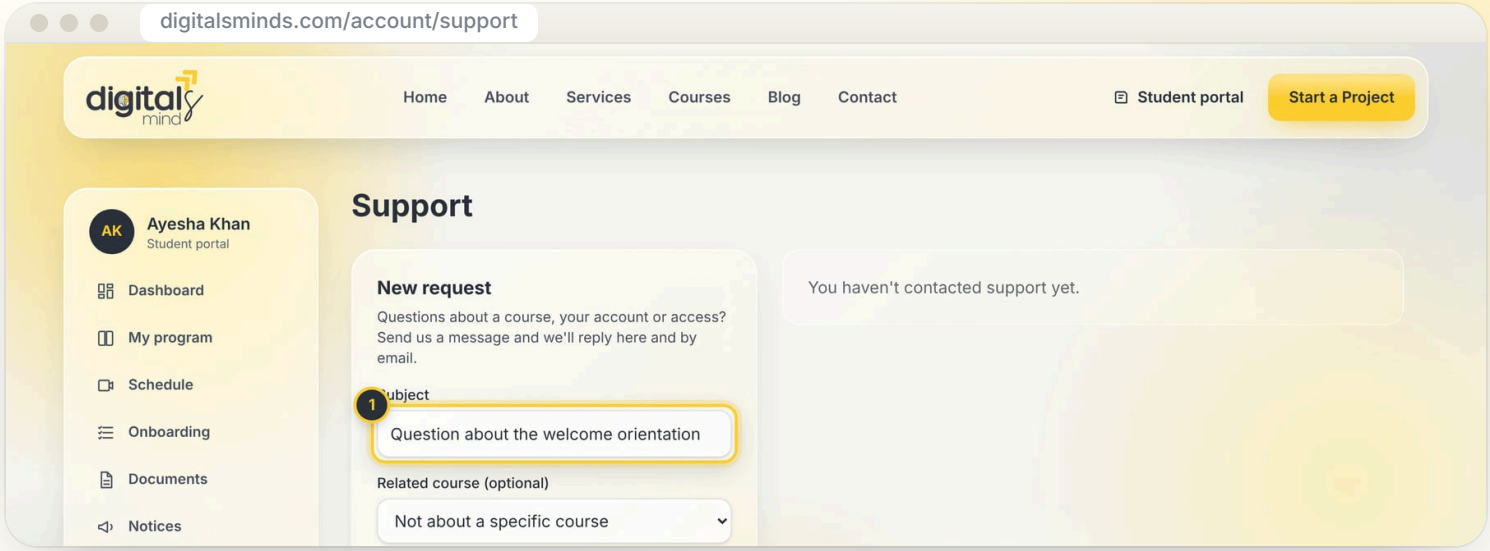

STEP 18

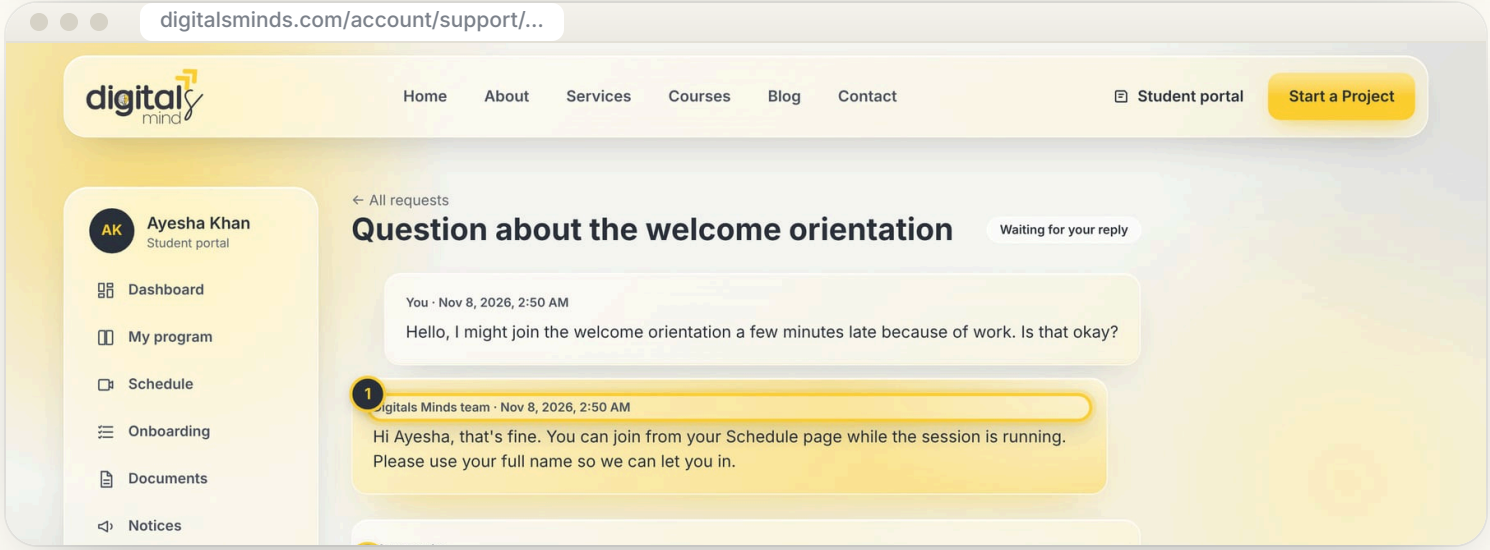

Contact support from your portal

Open **Support** and fill in **New request**:

1. **Subject**, a short title for your question (you can also pick the related course).
2. **Message**: explain what you need.
3. Click **Send**.

Our team replies in the same conversation and by email. When the status says **Waiting for your reply**, answer in the **Your reply** box.

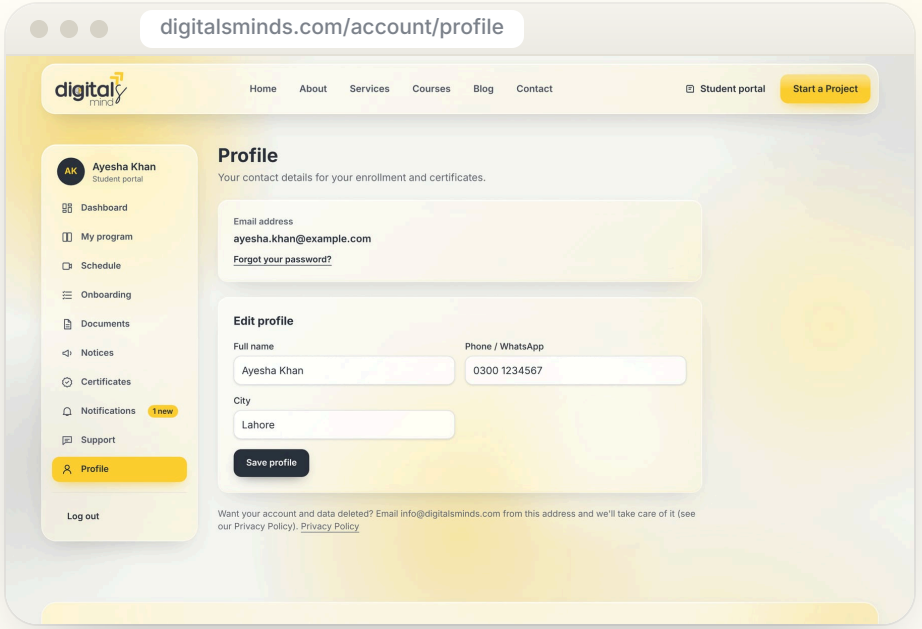

> Never send passwords or one-time codes to anyone, including us.

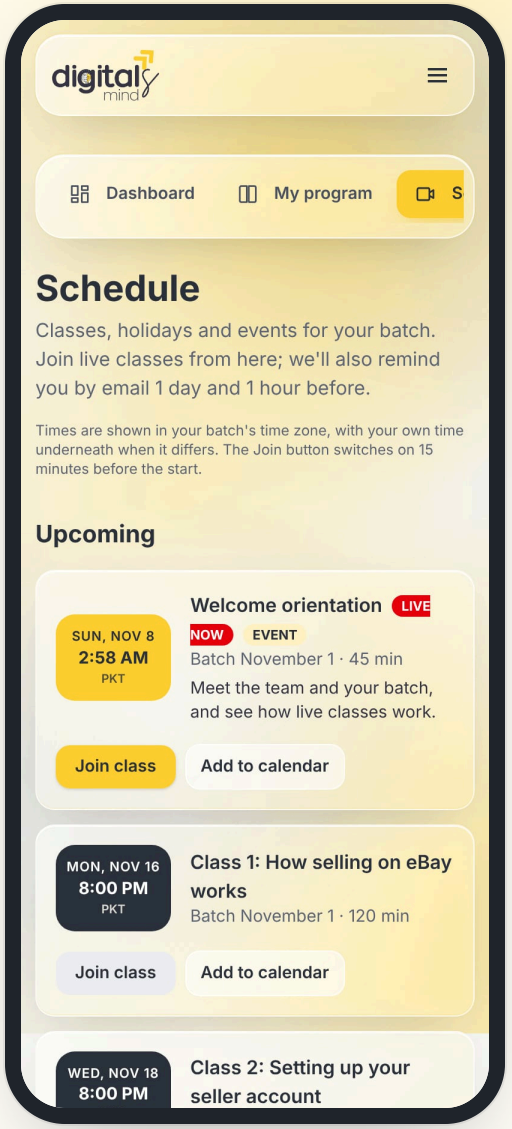

PROFILE AND MOBILE

Keep your details up to date

In **Profile** you can update your **full name**, **phone / WhatsApp** number and **city**, then click **Save profile**. Your email address is shown for reference.

If your phone number or city is missing, the dashboard asks you to complete your profile so our team can reach you about your batch.

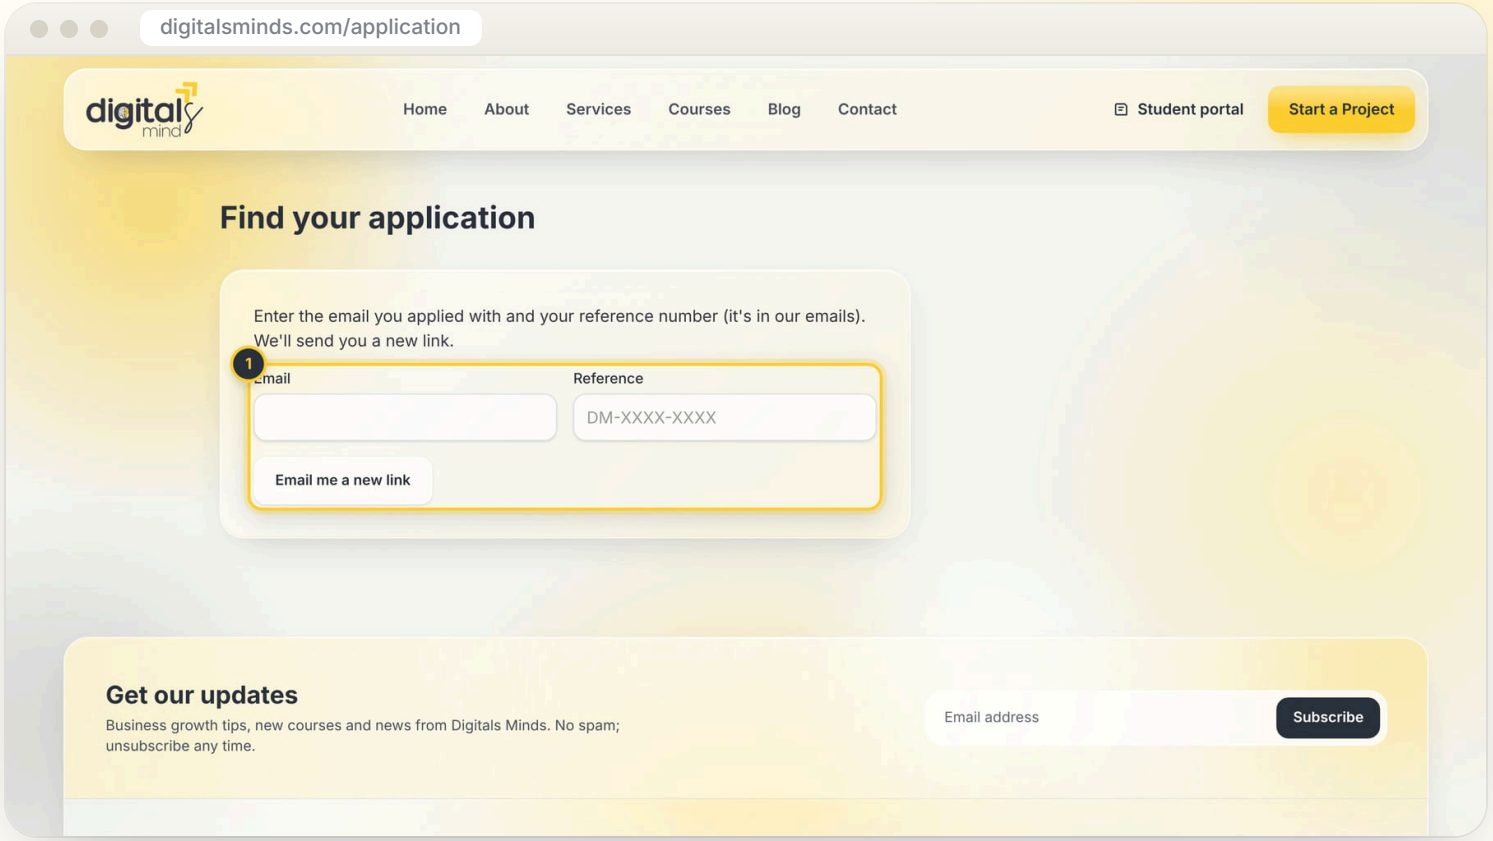

The website and portal work on phones too. The portal menu becomes swipeable tabs at the top.

LOST YOUR APPLICATION EMAIL?

Ask for a new application link

Before your account exists, your application page is reached only through the emailed link. If you lost it, or it says it has expired:

1. Go to **digitalsminds.com/application** (**Find your application**). Enter the **email** you applied with and your **reference** (DM-XXXX-XXXX), then click **Email me a new link**.

For your privacy, the page doesn't say whether an application exists. If the details match, a new link arrives by email and earlier links stop working.

FREQUENTLY ASKED QUESTIONS

Answers based on how the platform works

Do I need an account to apply?

No. You apply as a visitor. Your student account is created only after your payment is verified.

How long does verification take?

Our team checks each payment by hand against the account statement. You'll get an email as soon as it's verified; there's no automatic approval.

Can I pay in instalments?

The fee is paid in full, in PKR, before your enrollment is confirmed. Fees are non-refundable once paid (see the Refund Policy).

Which payment methods can I use?

The ones listed under *How to pay* on your application page: bank transfer, JazzCash or EasyPaisa, when offered.

I didn't receive an email.

Check your spam folder. Then use *Find your application* with your email and reference to get a new link.

My payment wasn't verified.

The reason is shown on your application page and emailed to you with a fresh link. Check the details and send them again.

The batch I want is full.

A full batch stops taking applications. Choose another open batch, or contact us about the next one.

When can I join a class?

From your Schedule page: *Join class* switches on 15 minutes before the start. Reminders are emailed 1 day and 1 hour before.

Are lessons available as videos?

No. Programs are taught live online; the portal doesn't host recorded lessons.

Who can see my CNIC and CV?

Only our enrollment staff. They are never shown publicly.

Learn | Grow | Earn.

Welcome to Digitals Minds

We're glad you're joining us. Complete your onboarding, keep an eye on your schedule and notices, and reach out whenever you need help.
